

SHOOTS, KILLS INTRUDER IN HIS HOME

Stanford Graduate and Former
University of California
Instructor is Slayer

Son of Millionaire Cuts Wife's
Throat Then Takes Dose
Bichloride Mercury

MINNEAPOLIS, Jan. 28.—William E. Allen, professor of anatomy at the University of Minnesota, was arrested today for killing Carl Nyrall while the latter was attempting to enter his home last night.

The police say Nyrall was intoxicated and did not know what he was doing.

Allen, who is a graduate of Stanford and who later was an instructor of the University of California, expressed no regret, saying, "Any man who enters another's home must expect to be taken for a burglar and take the consequences."

HOUSTON, Tex., Jan. 28.—Ward Snyder, aged 42 years, said to be the son of a millionaire Pittsburg oil operator, this morning slashed his wife's throat, then swallowed bichloride of mercury. The woman is dead, and Snyder is dying.

Mrs. Snyder was a former opera singer, and strikingly beautiful. The couple were enroute to Corpus Christi when Mrs. Snyder became ill on the train. She was taken to the Baptist sanitarium here. Snyder called this morning to learn her condition. The nurses left them alone and a few moments later attendants saw blood trickling under the door. Investigation disclosed the tragedy.

IS ERNIE JOHNSON NOW DOING A TRIPLE FLOP?

Has Ernie Johnson, shortstop of the Los Angeles ball club, done a triple flop?

George Stovall, manager of the Kansas City Federals, was at Laguna Beach Monday. At that time he conferred with Johnson. Now Johnson is in Los Angeles, preparing to leave for Chicago Friday. The question is, "What significance is there in the moves of Johnson and Stovall?"

With the Angels ready to start training within a month, it hardly seems probable that Johnson would leave for the Windy City unless he had fully determined to report to one of the Federal clubs.

The shortstop, before he left Laguna, would not state what business he had in Chicago. All that could be learned was to the effect that he would leave Friday for Chicago.

Putting two and two together, it looks very much as though Johnson had carefully determined to do the triple stunt.

Recently it was reported that Johnson had jumped to the Feds, having been made an offer of \$4000 annually and a bonus. Then came the announcement that Johnson had yielded to the persuasions of President Darnold of the Angels and had agreed not to go to the Federals. It now appears certain that Johnson has again gone back to the Federals.

**REFUGEES OF MEXICO
HAVE SIX NEWSPAPERS**

SAN ANTONIO, Texas, Jan. 28.—Six daily newspapers printed here in Spanish are eagerly read for news from Mexico by the big Mexican population of San Antonio and vicinity. Five thousand or more refugees are making their homes here pending final settlement of the revolutions and counter revolutions in the republic south of the Rio Grande. Of the six dailies, three espouse the cause of Carranza, two champion Villa and one favors Felix Diaz.

THESE HAPPENED IN LOS ANGELES, TOO

Monster Rat Attacks and
Bites Man at Night

Doctor Falls Unconscious as
He Drives Car

LOS ANGELES, Jan. 28.—Stricken unconscious in the driving seat of his automobile, Dr. John P. Gilmer was seriously injured when his car collided with an automobile truck last night.

The truck driver ascertained his name from cards in his pocket and took him home, where he was treated. It is reported today he will recover.

On regaining consciousness, Gilmer said the last he remembered was feeling a faintness and that he tried ineffectually to shut off the power of his car.

The automobile was ruined.

LOS ANGELES, Jan. 28.—Attacked by a huge rat while he was sleeping in the rear of his store, R. E. Naloner, was severely bitten on the face and feet today before he beat the animal off.

Naloner was awakened when the rat fastened its teeth in his lower lip, and was bitten twice on the cheek before he leaped to his feet.

The rat then attacked his bare feet, inflicting painful wounds while Naloner kicked frenziedly.

Naloner then dressed and rushed to the receiving hospital, where the wounds were cauterized.

Jan. 28 (2:15 p. m.)	.26	10.06

Rain tonight and Friday, with southeasterly winds, is forecasted by the weather bureau.

The heaviest precipitation since Sunday came during the forenoon today. Threatening skies, with occasional flashes of sunshine and very light drizzles have prevailed for three days, but it was not until this morning that the rain began in earnest.

Orange picking is being delayed but this is considered a desirable thing by the growers. Delayed shipments cannot help but improve market conditions, naval growers say.

There has been some picking between showers but it has practically stopped. No fruit was being gathered today.

Extreme cold weather in the East is affecting the market. With the temperature from 10 to 20 degrees below, the government will not allow inspection. Owing to these unfavorable conditions in the East, delays in shipments are reacting favorably for the Orange county orange men.

Reports from the San Joaquin ranch are to the effect that the present season, as far as rain is concerned, is one of the best in recent years. The rain is coming down in light showers, the soil getting the full benefit. The ranchers are able to till their lands to the best advantage. There have been no floods to cake the soil.

Each succeeding rain brings additional assurance of record-breaking crops this season.

WEATHER FORECAST

For Santa Ana and Vicinity—Rain tonight and Friday. Southeasterly winds.

War Proves Not All 'Beer and Skittles' For Troopers Hardships of Life in Battle Trenches Shown by Camera

WILSON VETOES IMMIGRATION MEASURE

WASHINGTON, Jan. 28.—President Wilson today vetoed the Dillingham Immigration bill, the veto being received by the House shortly before noon. The President rejected the measure because of the provision for a literacy test for immigrants. The message accompanying the veto declared the measure would, in effect, close the "open door" which this country maintained to immigrants.

"Restrictions like these," the message continued, "if adopted earlier in our history would have materially altered our course and cooled the human ardor of our politics. The right of political asylum has brought to this country many men of noble character and elevated purpose who were marked as outlaws in their own land, but who have become an ornament to our citizenship."

Further on the president said: "If the people of the nation have made up their minds to limit immigration by arbitrary tests and to reverse the policy of generations, it is their right. I am their servant and have no right to stand in their way. But," he added, "I don't believe they have."

**DAKOTANS GUARDING
AGAINST SPRING FLOOD**

MANDAN, N. D., Jan. 28.—Residents today began preparation for the spring floods, which old timers say, will be as great this year as the devastating floods of 1910, which caused damage amounting to thousands of dollars.

This is one of the most remarkable photographs of the war. It shows one of the dominant forces which have made this European conflict one of the most terrible of history. Fatigue is what soldiers of all sides have complained about. Men fight for days and nights at a time without a chance to sleep, except the few hours they may steal in the trenches while bullets fly above them. While little actual work is done at night, the men cannot leave the trenches for fear of raiding parties. They must be ready at all times for battle. It has been said that half the French soldiers live in a haze because they are dead tired, and Englishmen returning wounded have said the fatigue was absolutely impossible to describe.

This photograph shows the Germans on the Russian border suffer the same way. It was taken during a battle at Darkehmen on the Angerapp river, a tributary of the Pregel, which runs past Koenigsberg. Near the rifleman on guard may be seen the hole by which these soldiers will enter their dugout from the trenches if shells begin to burst over them. When artillery fire is continued for hours, these men must live huddled in the mud and foul atmosphere of their holes in the ground.

That Germany will fight to the limit, is the statement of Admiral von Tirpitz, one of the strong men of Germany and the builder of the present German navy.

"It is said England wants war to the hilt," said he to Karl von Wiegand, correspondent of the United Press. "If England insists on that, we can accommodate her."

\$10,000 YEARLY IS ALL ANY MAN SHOULD EARN

—REV. JOHN S. HOLMES

NEW YORK, Jan. 28.—Testifying before the Federal Industrial Relations Commission investigating the Rockefeller-Sage-Carnegie foundations, Rev. John Saynes Holmes of the Unitarian Church of the Messiah, New York City, declared that universities and other institutions privately endowed by foundations are a menace to American institutions and should be under government control.

He declared no individual is entitled to earn more than \$10,000 annually.

The commission decided today to hurry the investigation and conclude its work here before the end of the week. It goes then to Chicago, where the Michigan copper situation and the relations between railroads and employees will be considered.

REPUBLICANS KEEP UP SHIP BILL FILIBUSTER

WASHINGTON, Jan. 28.—The Republican filibuster against the administration's ship purchase bill was continued in the Senate today, led by Gallinger of New Hampshire.

The minority demanded a quorum at every possible opportunity, thus requiring a continued attendance of the bill's supporters. The contest seems settled down to one of physical endurance between the opposing factions.

500 SAIL FOR 1915 FAIR VIA BIG CANAL

PHILADELPHIA, Jan. 28.—Carrying 500 passengers en route to San Francisco for the opening of the Panama-Pacific Exposition, the steamship Great Northern cleared this port at 9:14 this morning.

The vessel is traveling via the Panama canal and is expected to reach San Francisco about February 13.

BULLETIN

NEW YORK, Jan. 28.—Announcement is made today that the American Association of International Baseball Leagues have been raised to major league rank, taking rank with the National and American Leagues.

LOS ANGELES, Jan. 28.—Coast League baseball officials asserted today that an agreement has existed since 1913 that the Coast League should become a major league whenever the International American Association was raised in rank. They believe today's announcement automatically raises the rank of the Coast League.

JESSIE COPE TO FACE BRIBERY CHARGE TODAY

CHICAGO, Jan. 28.—Miss Jessie Cope, charged with attempting to bribe federal officials to gain their aid in her breach of promise suit against Col. Alexander, Providence, R. I., millionaire, today was to go to trial before Federal Judge Carpenter. Previous to the bribery indictment against Miss Cope, who is a California girl, Alexander was indicted on a charge of violating the Mann White Slave Act. Miss Cope declared he paid her transportation from a California city to the east. She said he promised to marry her and then scorned her.

WINDY CITY STAGES SIX-DAY BIKE RACE

CHICAGO, Jan. 28.—The first six-day bicycle race to be held in Chicago for twenty years is scheduled to start tonight in the international amphitheatre at the stockyards, with nearly a score of well known racers entered. If the attempt to revive the marathon races is successful, a series of contests will be arranged this winter.

ZERO WINTER GALES RAGE OVER ALL EAST

* CHICAGO, Jan. 28.—The entire Central and Middle West is in the grip of the coldest weather of the winter. There were two deaths here today. The thermometer is at 8 below. Other temperatures reported are Prince Albert, Canada, 36 below; Charles City, Iowa, 30 below; St. Paul and Houghton, Mich., 32 below. Temperatures throughout this section are from 10 to 30 below. The cold wave is expected to reach the Atlantic coast by night.

MEXICO CITY IS REPORTED EVACUATED; GARZA JAILED

WASHINGTON, Jan. 28.—Some concern is manifested here at the absence of direct news from Mexico City, which is reported evacuated last night by the Garza and government troops, with Obregon's troops ready to march in at daylight. The latest messages, however, give no indications of violence or fighting. The State Department is awaiting news.

GALVESTON, Jan. 28.—The imprisonment of Provisional President Garza of Mexico by Zapata is reported here this afternoon in a dispatch from Laredo to the Constitutionalist consul. While it is declared the Villistas have abandoned Monterey no mention is made of the evacuation of Mexico City, which was reported last night in Mexican dispatches.

STATE SOLONS PLAN FOR ADJOURNMENT SATURDAY

SACRAMENTO, Jan. 28.—The Assembly today adopted a resolution to adjourn at noon on Saturday, to reconvene March 2. The Senate has not yet concurred, but is expected to.

The special committee hearing Edwin Grant's contest for the seat of Senator Wolfe today recommended unanimously that Wolfe be seated.

MORRIS AND SMITH TO BATTLE TONIGHT

ST. LOUIS, Jan. 28.—Carl Morris, Billy McCarney's huge white hope, and Gunboat Smith will meet here tonight in a bout scheduled to go eight rounds before the Coliseum Athletic Club.

TEUTON - FRENCH BOTH CLAIMING OTHER LOST

BERLIN (by wireless to London), Jan. 28.—French losses running into the thousands occurred in the last three days on the heights of Craonne. The war office announces today: "We found 1100 dead in the French trenches we took, and captured 100 more."

It is claimed the attack on the heights has been resumed and that 500 yards of French trenches, comprising strong French positions, have been taken.

PARIS, Jan. 28.—The German losses in Flanders and France in the fighting of the last three days are at least 20,000. This claim was made in a French war office statement this afternoon.

It is claimed the Germans lost 7000 to 10,000 killed and wounded in the fighting for possession of the heights of Craonne, and it is said the French repulsed their attacks, losing but 800.

The attacks on the British positions at La Basse cost 2000 to 3000, the statement said.

The hillside about Craonne are reported littered with dead and wounded. There was a lull in the fighting today while the dead were buried.

Substantial French gains in Alsace are claimed.

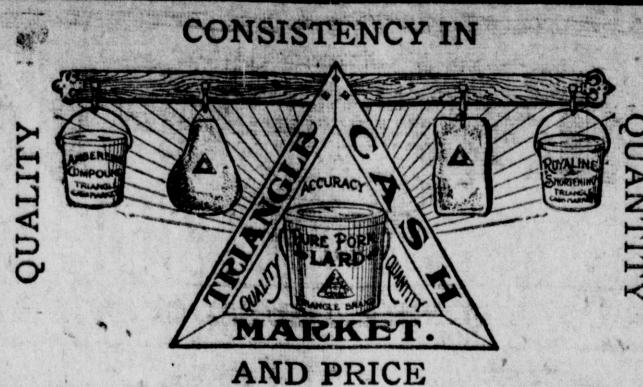

An advance of nearly a quarter of a mile north of Pont-ad-Mousson, where the French assumed the offensive, is also claimed.

In Belgium, British artillery is said to have destroyed the German trenches along the Lys, preventing German attempts to concentrate there. Artillery firing continues in Arras, Roye, Noyon and Soissons, but no infantry activity is reported there.

BEAN MEN HARD AT WORK ON RANCHES

Look Forward to Greatest Season in History of the Industry

WEATHER CONDITIONS FINE FOR SOIL WORKING

Irvine Acreage to Be Increased by About 200 Acres This Year

Bean ranchers on the San Joaquin are finding the present season one of the best in recent years for cultivation of soil in preparation for the planting of beans during the latter part of April and the month of May. It is indicated that the 21,000 acres of beans which last season bore a record-breaking crop, will be increased by about 200 acres this year.

Last season's crop was divided into 18,000 acres of limas and 3,000 acres of black-eyes. The 200 additional acres this year are the result of new lands being planted.

Discing, harrowing and general cultivation will be kept up until the planting begins in order to keep down the weed growth and to conserve moisture.

Although last season was the most successful in the history of the industry in this county, this year promises to be even better. The rains which have fallen have been wonderfully adapted to bring the best results for the planters, having been gentle and soaking.

Up to date there have been no floods whatever and the result is that the soil is getting the full benefit of

the rains. Last year during January and February there were occasional heavy downpours which caused flooded conditions.

The gentleness of this season's rains has been particularly beneficial to the grain growers on the great Irvine ranch. Most of the grain is planted on hillsides. For this reason a drenching rain is almost destructive as compared with gentle precipitations, such as have prevailed so far this season.

Weather conditions have greatly aided those ranchers who dry-plowed their lands last fall immediately after bean harvest. Dry-plowing invariably results in the turning up of large, hard clods which are exceedingly difficult to break up and put into a condition such as to permit the seeds to sprout. Hard rains do not make the task of working up dry-plowed lands much easier while gentle rains soak up the clods and make them easy to pulverize.

"We have every reason to think that this year will be the most successful in the history of bean growing in Orange county," said C. E. Krauss, manager of the Irvine ranch.

PLACENTIA PACKERS BUSY
Placencia Courier: Four of the packing houses have started the season's run on the new navel crop. These are the Placencia Mutual, the Randolph, the Fay and the Placencia Orange Growers.

The crop this year in this section is about average in quality and yield. The price is not very encouraging but the navel, unlike the Valencia, cannot be kept on the trees indefinitely without deteriorating.

BEGIN WORK ON FIRST ANAHEIM THREE-STORY

Anaheim Plain Dealer: Work of constructing Anaheim's first three-story business building was begun last week with Contractor Charles Conliffe in charge of the construction.

The structure, which will be the finest business block in the city, is being erected for Mrs. J. E. Fisher, on West Center street. The building will have a frontage of 60 feet and a depth of 80 feet. It will cost \$20,000.

Chicago doctor says love is only anaphylaxis. That's bad enough when complications set in.

TAKE SALTS TO FLUSH KIDNEYS

Eat Less Meat if You Feel Backache or Have Bladder Trouble

Meat forms uric acid which excites and overworks the kidneys in their efforts to filter it from the system. Regular eaters of meat must flush the kidneys occasionally. You must relieve them like you relieve your bowels; removing all the acids, waste and poison, else you feel a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, your stomach sours, tongue is coated and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment; the channels often get irritated, obliging you to get up two or three times during the night.

To neutralize these irritating acids and flush off the body's urinous waste get about four ounces of Jad Salts from any pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine and bladder disorders disappear. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate sluggish kidneys and stop bladder irritation. Jad Salts is inexpensive; harmless and makes a delightful effervescent lithia-water drink which millions of men and women take now and then, thus avoiding serious kidney and bladder diseases.—Advertisement.

INDORSE ROADS FOR SURPLUS PAVING

Orange Gathering Favors Football Boulevard, Yorba and Garden Grove Strips

ARE READY TO FIGHT FOR THE RESOLUTION

El Modena, Villa Park and Tustin Delegations Voice Choice in Controversy

Paving of the foothill boulevard from Tustin through Lemon Heights, El Modena, and Villa Park to Olive.

Paving of the Santa Ana canyon road from Olive to the Riverside county line.

Paving of the road between Placencia and the Santa Ana canyon road at Yorba.

Paving of the road between the county hospital and the Garden Grove road.

There was mighty little argument at the meeting held at the rooms of the Orange Commercial Club at Orange last night. It was the sentiment of the gathering that its indorsement be given to the paving of roads as outlined above with the \$240,000 of the good roads bonds money.

That the road between El Toro and the state highway and a strip of road on the Cypress road north of Stanton are to be paved out of the surplus is no longer a matter of controversy. They will be paved. The same thing might be said of the paving of the Santa Ana canyon, yet the Orange meeting did not fail to give that project its hearty indorsement. County Highway Commissioner D. C. Pixley was present, and when called upon for remarks said that he could not go any further in his statements than had already been made public through the papers. He did not say what the report of the majority of the commission will be. It is the intention of the board to complete its report soon and submit it to the Board of Supervisors.

There were two delegations on hand from El Modena ready to argue concerning the route to be followed in building the road northward from El Modena. Some want the present main traveled road paved, while others want the road a quarter of a mile east selected for that improvement. The meeting declined to discuss the matter. It was concluded that there will be plenty of time to discuss the route after the road is secured.

NOMINATIONS ARE MADE AT MEETING OF STUDENT BODY

Wednesday afternoon the regular weekly assembly of the Santa Ana High School was held. Nominations for the various student body officers were in order. Many of the students took part, showing that affairs were not run by a few enthusiasts. Following is a list of nominees:

For President—George Oertly, Vern Smith and Marvin Morrison.

For Vice-President—Vada Swall.

HEAD AND NOSTRILS STUFFED FROM COLD

'Pape's Cold Compound' Ends a Cold or Grippe in a Few Hours

Your cold will break and all gripe misery end after taking a dose of "Pape's Cold Compound" every two hours until three doses are taken. It promptly opens clogged-up nostrils and air passages in the head, stops nasty discharge or nose running, relieves sick headache, dullness, feverishness, sore throat, sneezing, soreness and stiffness.

Don't stay stuffed! Quit blowing and snuffling! Ease your throbbing head—nothing else in the world gives such prompt relief as "Pape's Cold Compound," which costs only 25 cents at any drug store. It acts without assistance, tastes nice, and causes no inconvenience. Accept no substitute.—Advertisement.

Vier Robinson, Thoretta Taylor and Miss Bell.

For Secretary—Dorothy Mead, Cecil Fross and Norma Wingood.

For Treasurer—J. P. Sebastian and Ralph Beals.

For Yell Leaders—George Oertly, Vern Smith, Clifford Inger, Marvin Greathouse, Basil Smith, Hill, and George Alsbach.

For Song Leaders—Eugene Trago, Cecil Fross, Greba Scott, Clair Burkett, Frank Biggs.

These nominees represent various parties, namely, "The Progressive Peace," "The Big Eight" and "The Student." According to the high school constitution, primary elections must be held, reducing the number to two candidates, except song and yell leaders, there being two people for each office.

The Mars Club has held several meetings lately. A variety of good times are in store for these members.

All members must pay their dues of 25 cents per semester before February 10, or their name will be dropped.

There are still a few last year's Aerials for sale at their original price. Those wishing copies should obtain them at once.

The Boys and Girls' Glee Club will meet at 7 o'clock Thursday night.

Prof. J. A. Cranston announces that the high school students wishing to attend the Orange County Day, February 6, at the San Diego exposition may obtain round-trip tickets at the school. The money, \$3.20, should be deposited at the high school office or with the secretary of the Chamber of Commerce before tomorrow (Friday) night. The train leaves Santa Ana at 8 a. m. Saturday morning, February 6, and returns leaving San Diego at 10:30 Saturday night. The tickets are good for seven days. Free lunch is included, given at the exposition grounds at noon Saturday. It is expected a large number will make use of this opportunity.

Miss Taney of the high school faculty now has a folk dancing class. Over sixty girls have entered. Various kinds of folk dances are being taken up, among them the old-fashioned dances of Germany, Spain, Holland and various other countries. Those who have not paid up should do so as soon as possible. The class is very enthusiastic over the prospect of the many good times in view.

Tuesday morning Miss Brockett gave an illustrated talk on the Yellowstone National Park to her second period junior class. The school has purchased a new stereopticon lantern and she used this very effectively in her talk.

GARDEN GROVE MAN WHO WAS HURT IN RUNAWAY RECOVERS

Surprise Shower Was Given Miss Edith Steele and William Abbott Tuesday

GARDEN GROVE, Jan. 28.—Mr. Vlahart, who has been quite ill at the hospital on account of injuries received in a runaway, is better and returned to his home yesterday.

Mrs. Margaret Clark, mother of Dr. Olive Clark of Los Angeles, is spending a week at the home of Rev. Thomas.

Special evangelistic services are being held in the Friends church of Alamitos. Rev. C. Lescault is the evangelist.

Mr. and Mrs. G. Reyburn, Miss Eastman and Miss L. Chaffee motored to Long Beach Saturday.

The Y. M. C. A. boys were entertained at the home of Mr. and Mrs. Lake Friday evening, January 22. Mr. Lake treated the guests to a very delightful evening of music with his ambrola. During the evening popcorn and apples were served.

Mr. and Mrs. G. Spain, Mrs. M. E. Spain and son, Willard, motored to Simi, Ventura county, Sunday, to visit Mr. and Mrs. Castleman. Miss Bessie Spain, who has been spending a month with her sister, Mrs. Castleman, returned with them.

Mr. and Mrs. George Spain have moved to Los Angeles.

Miss Maude Aranhalt, who has been sick for a few days, is able to be about again.

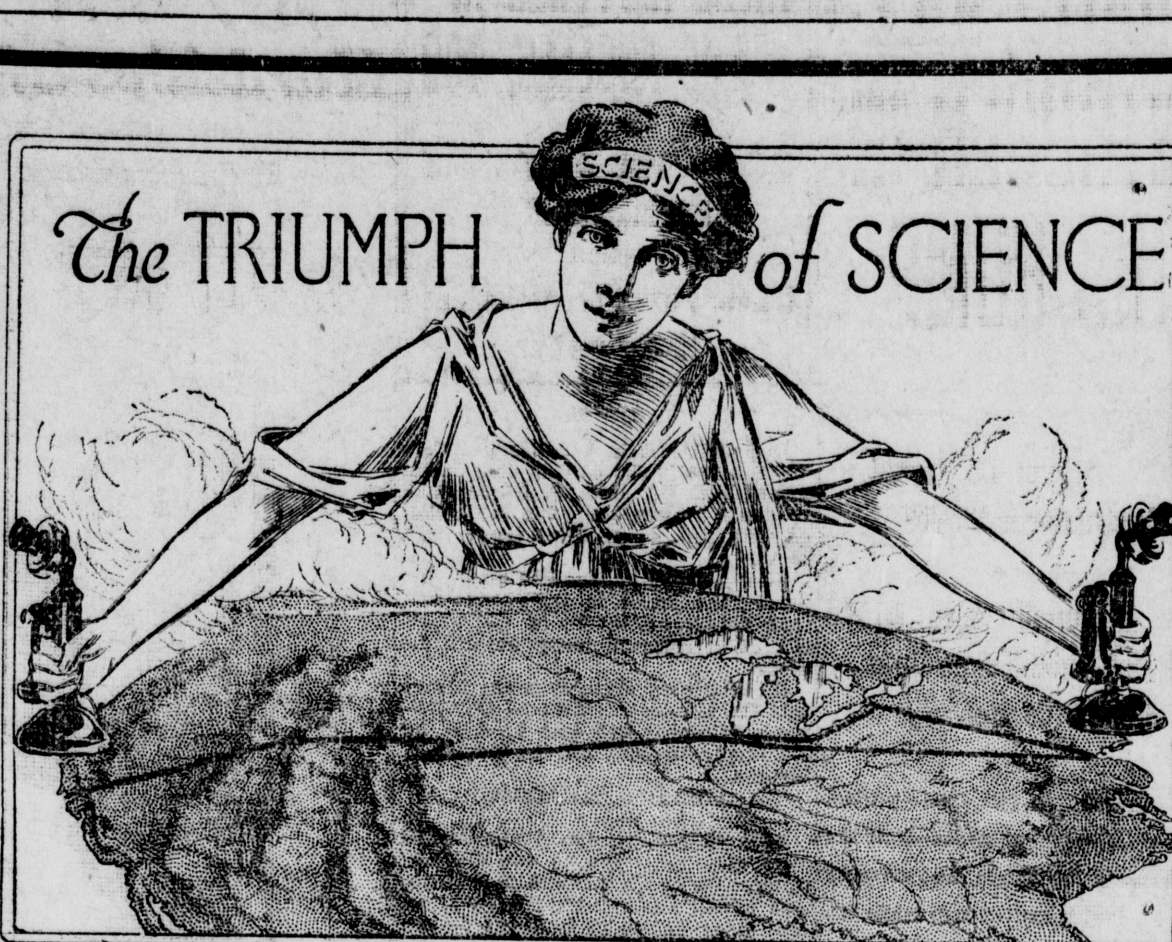

Charles Ludt of Huntington Park spent Tuesday in the Grove.

Mr. Fulgham and his son went to Fresno Tuesday on a land trade.

Ray Beardsley delivered two truckloads of walnut trees to Riverside Wednesday.

A Sudden Shower

There were several expecting a shower Tuesday night, but it came as a surprise to Miss Edith Steele and William Abbott, when a large number of their friends gathered at her home and brought them many beautiful and useful gifts and everything proved to be "just what they wanted." The evening was spent in games and music. One game which proved to be the joke of the evening was the pain given to every one by the Chinese doctor. At a late hour refreshments of cake and chocolate were served and the guests departed, wishing them a bright and happy future.

THIS busy, progressive nation is today at the dawn of a new era of commercial and social development. The means by which the human voice, with its slightest inflections and indications of personality, can be carried across the continent instantly, have been provided. Talking by telephone from the Pacific to the Atlantic is now an accomplished fact.

The celebration of this latest and greatest triumph in the art of telephony has just taken place. Within a short time the public will have, ready for its use, the product of American brains, American initiative and American scientific and technical skill, a transcontinental telephone service, the equal of which is not even approached in all the other nations of the world.

It is a splendid scientific achievement of the very highest character. The power that sends the human voice out over the telephone is scarcely greater than that of a breath, yet the means have been provided by which this tiny, almost imaginary impulse, made up of as many as 2,000 separate vibrations a second, can be picked up by a delicate instrument, conserved over a distance of 3,400 miles, and reproduced perfectly and instantly across the continent. The human voice has been made to travel as fast as light, faster than sound unaided by technical apparatus; indeed, it rivals THOUGHT even, in the swiftness of its flight.

The imagination can but feebly grasp, much less attempt to measure, the far-reaching significance of such a tremendous accomplishment. One hundred million people will have for their daily use a system of communication that knows no East, no West, no North, no South. Dialects, provincialisms, sectional prejudices, must eventually yield to the closer union, the better understanding, the more intimate comradeship that

the human voice establishes. The neighborliness of a whole nation is advanced by the brushing away of the physical restraints of centuries.

This contribution to the future happiness and prosperity of a more closely united people has not been brought about, however, by the overcoming of a few isolated, concrete difficulties. Its success has depended upon the exercise of the highest engineering and technical skill, and the solution was found only in the cumulative effect of improvements great and small, in telephone, transmitter, line, cable, switchboard, and every other piece of apparatus or plant required in the transmission of speech.

In this work the experimental and research department of the Bell System, of which this Company is a part, has been engaged ever since the telephone became a commercial possibility, less than 40 years ago. With no traditions to follow and no experience to guide, this department, which is now directed by a staff of over 550 engineers and scientists, including former professors, post graduate students, scientific investigators—the graduates of 140 universities—has created an entirely new art—the art of telephony, and has given to the people of this country a telephone service that has no equal.

It has required vast expenditures of money and immense concentration of effort, but these have been justified by results of immeasurable benefit to the public. The transcontinental telephone line, 3,400 miles long, joining the Atlantic and Pacific, is part of the Bell System of 21,000,000 miles of wire connecting 9,000,000 telephone stations, located everywhere throughout the United States. Composing this system are the American Telephone and Telegraph Company and Associated Companies and connecting companies, giving universal service to 100,000,000 people.

Truly, This is The Triumph of Science

The Pacific Telephone and Telegraph Company

MASONIC LODGES COMPLETE ALL INSTALLATION

Season of Fraternal Ceremonies is at an End; Lists of Officers

(By Staff Correspondent)
ORANGE, Jan. 27.—A season of installation that has extended over the last month was closed last evening with the taking of oaths by the officers of the local Masonic lodges, Orange Grove Lodge No. 293, F. & A. M., and Orange Grove Chapter No. 99, R. A. M. This event practically concludes this line of fraternal activity until next year.

The Masons made a most brilliant affair of the evening's program. At 6 o'clock a splendid banquet was served at the First Christian church by ladies of that church. Covers were laid for about 150 guests. Dr. D. F. Royer was toastmaster at the banquet. There was one speaker, Rev. W. E. Spicer, pastor of the Christian church, who offered a toast on Masonry.

After the banquet the gathering adjourned to Masonic hall for the installation. The blue lodge rites were in charge of District Deputy E. B. Trago of Santa Ana who administered the work in impressive fashion. He was assisted by Frank Mansur of Santa Ana as grand marshal.

Deputy Grand Lecturer A. S. Bradford of Placentia, assisted by H. Z. Adams as grand marshal installed the officers of the chapter. The entire proceedings were conducted with dignity and in a manner that impressed and pleased the spectators.

Officers of Orange Grove Lodge F. & A. M. are as follows: A. F. Lankford, W. M.; C. O. Field, Sr. W.; W. A. Knuth, Jr. W.; N. T. Edwards, treasurer; W. S. Gregg, secretary; Willard Smith, Sr. D.; E. B. Peers, Jr. D.; Geo.

YOU'RE BILIOUS AND COSTIVE—CASCARETS

Tonight! Clean Your Bowels and End Headaches, Colds, Sour Stomach

Get a 10-cent box now.
Furred Tongue, Bad Colds, Indigestion, Sallow Skin and Miserable Headaches come from a torpid liver and clogged bowels, which cause your stomach to become filled with undigested food, which sours and ferments like garbage in a swill barrel. That's the first step to untold misery—indigestion, foul gases, bad breath, yellow skin, mental fears, everything that is horrible and nauseating. A Cascaret tonight will give your constipated bowels a thorough cleansing and straighten you out by morning. They work while you sleep—a 10-cent box from your druggist will keep you feeling good for months. Millions of men and women take a Cascaret now and then to keep their stomach, liver and bowels regulated, and never know a miserable moment. Don't forget the children—their little insides need a good, gentle cleansing, too.—Advertisement.

112 West Fourth St.

Elliott, Sr. S.; J. F. Rowley, Jr. S.; H. Z. Adams, chaplain; C. W. Meadows, marshal; J. S. Braisher, tyler.

Officers for Orange Grove Chapter were installed as follows: E. B. Peers, high priest; W. A. Knuth, king; C. O. Field, scribe; D. F. Royer, treas.; Earl Crawford, secretary; J. S. Braisher, ex. of H.; Thos. Haster, Sojourner; C. E. Newton, R. A. C.; E. H. Smith, 1st M. of V.; G. L. Jackson, 2nd M. of V.; Alred Higgins, 3rd M. of V.; Thomas Moren, sentinel.

Orville Nordeen celebrated his birthday anniversary last evening with a pleasant social affair at the J. M. Nordeen residence on North Shaffer street. A gay evening was spent with various pastimes, the event being prefaced with delicious refreshments in the way of a 6 o'clock dinner. The following were present: Mrs. Margaret Jasper, Miss Ruby Winterrowd, Miss Flossie Bates, Miss Margaret Kieflaber, Miss Lora Robinson, Miss Vera Sherwood, Miss Goldie Nordeen, Fred Bates, William Eckles, Ray Catherman, Homer McPherson, Dean Campbell, Ansel and Orville Nordeen.

Dr. C. J. K. Jones made a business trip to Los Angeles today. Mrs. Frank Kirkpatrick went to Santa Barbara yesterday, called by the illness of her daughter who resides there.

Manager C. E. Eudson of the Colonial theater transacted business in Los Angeles this morning.

Sherman Gillogly who recently moved his family here from Riverside has located in the new Benson house on South Orange street.

Attorney W. R. Garrett was a business visitor in Los Angeles this morning.

Mr. F. G. Wyman of San Dimas, superintendent of the Pomona Valley Fumigating company, is here as a guest of Rev. W. E. Spicer. He attended the Masonic installation last evening.

The Santa Fe railroad crossing on West Chapman avenue is closed while the company is paving between the rails to level the crossing.

Mrs. O. G. Fuller, Miss Alice Fuller and Miss Brown left this morning for San Jacinto where they expect to spend some time for Miss Fuller's health.

E. S. Morrow of Santa Ana was a business visitor in this city this morning.

Mrs. C. W. Meadows left this afternoon for Long Beach where she will visit until Saturday with the D. F. D. Pomeroy family. She will attend the Kansas picnic Friday.

T. R. Lawrence of Santa Barbara who recently purchased the Robert Northcross ranch in West Orange, will move there with his mother the last of this week. He has made extensive improvements on the house.

Mrs. F. V. Pruitt returned last evening from the Santa Ana hospital where she had a slight operation last week. She is getting along nicely.

PROMPT PAYMENT OF CLAIM

—The strength of the Modern Woodmen of America is again shown by the prompt payment of death claim of Almo E. Moore, who was drowned at San Diego. The order for full amount of his insurance was received fifteen days after presentation of proof of death. Mr. Moore was 42 years of age and had been a member for fifteen years, during which time he had paid a total of \$78.75. His beneficiary received \$1000. Do you need protection? If so, take out a certificate in the Modern Woodmen of America. C. R. Hill, camp deputy. Phone 839W.

THIS IS A BAD MONTH
—The indoor life of winter, with lack of outdoor exercise, puts a heavy load on the kidneys. Nearly everybody suffers from rheumatism, backache, pain in sides and back, kidney and bladder ailments. A backache may not mean anything serious, but it certainly does not mean anything good. It's better to be on the safe side and take Foley Kidney Pills to strengthen and invigorate the kidneys and help them do their work. They help rid the blood of acids and poisons. Sold by all druggists.—Advertisement.

The woman who wants to vote should be able to sharpen a pencil with which to mark her ballot.

However, the average man doesn't realize how lucky he is when a woman refuses to marry him.

NEW TEACHER IS EMPLOYED

Growth of School is Met by Adding Another Room; Beach Briefs

HUNTINGTON BEACH, Jan. 28.—An additional teacher has been employed to take charge of the overflow from the upper grades of the grammar school. Miss Fisher, a student at the University of Southern California, has secured the position. The new room will be ungraded and pupils from all of the upper grades will be assigned to it. It is expected that the new arrangement will simplify the complicated situation in many particulars.

A big delegation of visiting Masons from various sections of the county and particularly from Santa Ana were in attendance at the turkey dinner and third degree work of the local Masonic lodge last Wednesday evening. W. Dean Johnston of Westminster received the degree.

At the banquet J. O. Pyle acted as toastmaster. Judge W. H. Thomas of Santa Ana was the principal speaker. The evening was closed by the presentation of a midnight show at the Princess Theater through the courtesy of Manager W. P. Harrison.

Plans for the religious census of Huntington Beach have been fully made and the work here will begin at 10 o'clock Saturday morning, the same as elsewhere in the county. There are several country districts and in addition the city has been divided into eleven sections with two canvassers in each section. The purpose of the canvass is to find the religious preferences of the entire population, the data to be used by the various churches and Sunday schools with a view to preventing the overlapping effects and increase church and Sunday school attendance. District Superintendent T. C. H. DeLapp has charge of the work in this district and expects to have the work completed by noon or soon afterwards.

Woman's Club

The Woman's Club had its regular meeting at Odd Fellow's Hall Tuesday afternoon at 2 o'clock with a large attendance. The club is studying Germany this year and the papers all had to do with affairs and conditions in Germany. The program was planned long before the war broke out, but fits in very nicely with current events. Mrs. Gladys Noble discussed "Government Control of Natural Resources"; Mrs. Lou O'Brien read a paper on "The Army and Navy"; Mrs. C. E. Lavering gave an article on "Government Control of Municipal Resources."

In the series of basketball games between the girls of the various classes of the high school the Seniors have defeated the Juniors 9 to 4. The Sophomores have won from the Freshmen by the score of 3 to 1. Only the single game is to be played between the two upper classes but in most cases a three-game schedule is planned. The boys will hold an inter-class track meet Monday and Tuesday afternoons.

The Woman's Board of Missions of the Christian church is making a study of children of the different countries. At the last meeting held at the home of the pastor, Rev. Otto D. Lee, he conducted an interesting discussion on the subject in general.

Debate Chosen

Debaters have been chosen at the high school for the next debate in the Southwestern Debating League. They are Harry Bullock, Jesse Arnold, Henrietta Dickey and Aloys Schulte. The question is the "Monroe Doctrine." A somewhat acrimonious meeting of the league was held Saturday at Los Angeles Polytechnic high school, in which a complete re-matching of schools took place. Santa Ana is now scheduled to meet Huntington Park and Glendale, two of the weakest schools in the league. Huntington Beach meets Santa Monica and Manual Arts. The debate will be held March 12 at all places.

Beach Notes

Mr. and Mrs. N. W. Moses of Great Bend, Kan., are the guests of Mr. and Mrs. L. C. Decker. Mr. Moses is president of the German-American Bank and also has large flouring mill interests at Great Bend.

BE PRETTY! TURN GRAY HAIR DARK

Try Grandmother's Old Favorite Recipe of Sage Tea and Sulphur

Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray; also ends dandruff, itching scalp and stops falling hair. Years ago the only way to get this mixture was to make it at home, which is messy and troublesome. Nowadays, by asking at any drug store for "Wyeth's Sage and Sulphur Compound," you will get a large bottle of this famous old recipe for about 50 cents.

Don't stay gray! Try it! No one can possibly tell that you darkened your hair, as it does it so naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, and after another application or two, your hair becomes beautifully dark, thick and glossy.—Advertisement.

Important Arrivals--New Merchandise

New Silks—New Dress Goods—New Wash Goods—New Neckwear

—although our lines are not yet complete we have a goodly showing of New Spring Merchandise and within the next few days we will be in position to announce a matchless assortment of dry goods and ladies' dress accessories, from the best market places in the world.

GOOD CLOTHES ARE HALF THE BATTLE

As long as you are correctly dressed you can hold up your head and overcome adversities that otherwise would seem to be unsurmountable.

A LUTZ & CO. TAILORED SUIT INSURES THE WEARER THAT HIS CLOTHES ARE RIGHT IN EVERY DETAIL.

Eight years in the tailoring business in Santa Ana is the best proof of the reliability of our work and the high quality of our cloth.

LUTZ & CO., 120 W. 4th

store as soon as a stock of groceries could be received and installed, has bought the stock of Hand & Hand on Main street and has taken possession of the business.

Bert Noble has completed the construction of the county highway bridge at San Juan Capistrano and is now engaged in building a house for Jose Garcia at California and Detroit streets.

As a result of the evangelistic services conducted by Rev. Armstrong and Prof. Barnes at the Methodist church, closing Sunday evening, about forty additional members will be taken into the church.

Mr. and Mrs. H. E. Proctor of Ontario have moved into the house at Walnut and Twenty-second streets and intend making Huntington Beach their permanent home.

Mr. and Mrs. Alexander Cameron have purchased a ten-acre tract near the cemetery and will engage in the raising of lima beans.

A considerable acreage has already been sown to beans, but the greater part still remains to be done.

The Home Missionary Society of the Methodist church holds its monthly meeting Friday afternoon. The quarterly conference comes next Monday night.

The Freshman class of the high school held a party at the home of Miss Jaunita Kutzner last Friday evening.

A. Earl Pentoney of Los Angeles has accepted the management of the Standard Oil business in this city. A Ferguson, the former manager, is driving the wagon of the Union Oil Company from Santa Ana to this place.

A track meet between the grammar schools at Wintersburg and Talbert will be held on the high school grounds Friday afternoon of this week.

Santa Ana Painless Dentists, 102½ East Fourth St., Main 253.

THOSE WHO WILL GO ON SAN DIEGO TRIP SHOULD PUT UP COIN

Secretary Metzgar Believes That He Will Get a Band to Furnish Music

J. C. Metzgar, secretary of the Santa Ana Chamber of Commerce urges that those who contemplate going to San Diego on Orange County Day, Feb. 6, buy their railroad tickets through him or some member of the committee for the boosters to know very soon whether or not there will be 125 tickets sold. Today Metzgar was negotiating with a view to getting a band to make the trip. He has also been discussing the excursion with representatives from other places in the county, and many have put their shoulders to the wheel. Last night the Orange Commercial Club appointed a committee to further the project at Orange.

HO! FOR SAN DIEGO

Nearly everybody will go to see the San Diego Exposition at least once. Many will go twice and some will go oftener.

Why not plan to make the trip February 6, Orange County Day, in the company of your friends and fellow citizens?

It will be pleasant to make it that way, and you will be joining in a big boost for Orange county. You will have an outing in company of friends and acquaintances, and an opportunity to make new friends and acquaintances. You will receive courtesies and attentions not to be had at other times. You will get the benefit of a very low railroad rate. You will, after a visit thus early to the fair, be in a position to answer intelligently questions that may be asked you about the fair by your eastern friends.

Orange county ought to send a delegation of at least 500 on Orange County Day. There must be a delegation of at least 125 in order to get the low rate of \$3.25 for the round trip.

Make your deposit at once with Secretary Metzgar of the Chamber of Commerce. He must have the money in hand before he can get the rate concession and secure the tickets.

TRUST THE OFFICIALS

The Register fully agrees with those who have expressed the opinion and desire that the question of how to expend the road fund surplus be not discussed at the meeting of the Associated Chamber of Commerce at Yorba Linda tomorrow night.

Such discussion would accomplish no good and might do much harm.

Leave the decision to the Highway Commission and the Board of Supervisors. Theirs is the responsibility, and their judgment and fairness may be trusted.

MOVE FOR 'WET' STATE

We have heard a great deal since the vote on state wide prohibition about the desire of the wine people to check the saloon evil and adopt restrictive measures regarding the retail sale of liquor in the state that would satisfy the "reasonable" temperance people. There has naturally been a very general desire to see just what these reformers of the liquor industry from within would propose, and they have finally shown their hand with a bill which has actually been framed and is ready for presentation to the legislature. It has the backing of the California Grape Protective association, and as a "temperance" measure it is certainly a pipkin. The Fresno Republican has secured a copy of the act and summarizes its provisions as follows:

The provisions briefly are, first, that all the territory in California shall be divided into "wet" and "dry" and that saloons shall be licensed everywhere. All control over the licensing of saloons is taken away from the local authorities and the people and is conferred upon a state commission. The commission is required to issue licenses up to the number of one for each thousand of population to all reputable applicants and these licenses, when once issued, shall constitute a permanent and irrevocable right to run a saloon, which can be forfeited only after the license-holder has been twice convicted in court of criminal violation of the law, and these convictions have been finally confirmed by the last court to which they may be appealed. All saloons put out of business by the one-thousand-population ratio are to be compensated for their loss at the expense of those to whom the permanent licenses under the new law are issued. Saloons are to be open on week days from 6 o'clock in the morning until 2 o'clock the next morning, and no city is to have authority to shorten these hours; also, they shall be open on Sundays between 1 o'clock and 6 o'clock p. m., and no city may require Sunday closing. A bar license shall cost \$1000 a year, but if the license is for the selling of wine and beer alone, it shall cost only one-half of this amount. Other rates are: Wholesale license, \$500; hotel license, \$250; restaurant license, \$250; club license, \$200; steamboat license, \$100; railroad train license, \$10; grocer's license, \$50, and bartender's license, \$3. All grocers, on the payment of \$50, shall have the right to sell liquor, provided it is not consumed on the premises. The present prohibition of the sale of liquor to minors and intoxicated persons is continued, and the saloon man twice convicted of violating this law may have his license revoked, provided both these convictions have been confirmed by the final court. Seventy-five per cent of the saloon license fees shall be paid to the municipalities and twenty-five per cent to the state.

The law would clearly repeal the present local option law under which any municipality or any supervisory district can vote "dry," and by implication at least it cripples the police power under which municipalities voted out saloons before the local option law was passed. The law would even over-

ride the ordinances of cities where the sentiment is strong enough to force Sunday closing and early closing even though actual prohibition may not be possible as yet. It takes away from the people all they now have in the way of power to check the liquor evil and gives them nothing in return except a few restrictions that are in force already in many municipalities. And this measure is put forward as a "concession" to the temperance people of the state in order to stave off another state wide vote on prohibition. The proposition is so absurd that it is doubtful if the measure will command any support at Sacramento outside the San Francisco delegation.—Riverside Press.

A new cabinet for raising bread dough is provided with the desired temperature by heating a stone and placing it in the bottom.

Just about the time a man succeeds in developing a theory it explodes.

Foundation Stones for Agricultural Success

[NOTE—"What are the fundamental principles of successful agriculture?" This is one of a series of articles answering that question. In these brief summaries different experts of the faculty of the College of Agriculture of the University of California have set forth succinctly the basic principles of their various specialties.]

2—CROP PRODUCTION
By Charles L. Lipman, Professor of Soil Chemistry and Bacteriology in the University of California

Deep soil, meaning several feet free from coarse gravel, hardpan, or standing water, is essential for the production of the best crops in California.

Air, as well as moisture, each to the extent of about one-fourth of the volume of soil, are essential to successful plant growth.

Plant food in available (or "soil water"-soluble) form is essential to successful plant growth.

Maintenance of a plentiful supply of organic matter is essential to successful crop production.

A neutral or slightly alkaline reaction of the soil is essential to the successful growth of most crops. Lim-

A NEW LEVER

Possibly the grandfather clause will take on a new meaning in the White House after this.

NOTICE FOR PUBLICATION OF TIME FOR PROVING WILL, ETC.

In the Superior Court of the County of Orange, State of California.
In the Matter of the Estate of Caroline Buchheim, Deceased.
Notice is hereby given that Friday, the 5th day of February, 1915, at 10 o'clock a. m. of said day, at the Court Room of Department No. 1 of this Court, in the City of Santa Ana, County of Orange, State of California, has been appointed as the time and place for hearing the application of Aaron Buchheim praying that a document now on file in this Court, purporting to be the last Will and Testament of the said deceased, be admitted to probate, that Letters Testamentary be issued thereon to Aaron Buchheim, at which time and place all persons interested therein may appear and contest the same.

Dated January 28, 1915.
W. B. WILLIAMS, County Clerk.

NOTICE TO CREDITORS

Estate of Matilda H. Clark, deceased.
Notice is hereby given by the undersigned executor of the last Will and Testament of Matilda H. Clark, deceased, to the creditors of, and all persons having claims against the said deceased, to exhibit them with the necessary vouchers, within four months after the first publication of this notice (which publication was first made on the 19th day of December, 1914), to the said executor, at the office of Charles H. Stanley, one of his attorneys, in the City of Santa Ana, County of Orange, State of California, which said office is hereby designated as the place for the transaction of the business of said estate in the said County of Orange.
Dated this 19th day of December A. D. 1914.
REO. C. ADAMS, Executor.

SALE UNDER FORECLOSURE OF MORTGAGE

In the Superior Court of the County of Orange, State of California.
H. Machander, Plaintiff
vs.
W. D. Baker, Myra Baker, T. W. Neely, Annie Helen Neely, N. H. Leonard and Lucy A. Leonard, Defendants.

Under and by virtue of a decree of foreclosure and order of sale duly made and entered in the Superior Court of the County of Orange, State of California, on the 18th day of January, A. D. 1915, and a Writ of Execution for the enforcement of judgment requiring sale of property under foreclosure of mortgage issued out of the said Superior Court on the 18th day of January, A. D. 1915, in the above entitled action, in favor of H. Machander, plaintiff, and against W. D. Baker, Myra Baker, T. W. Neely, Annie Helen Neely, N. H. Leonard and Lucy A. Leonard, defendants, a copy of which said decree of foreclosure duly attested under the seal of the said Superior Court on the 18th day of January, A. D. 1915, and to me delivered on the 19th day of January, 1915, together with the said writ annexed thereto, whereby I am commanded to sell at public auction for cash, gold coin of the United States, the following and in said decree, described real estate: The South one-half (1/2) of Lot Two (2) in Block "C" of the "Noah Palmer Tract," as shown on a map recorded in Book 2, page 11, of Miscellaneous Maps, records of Orange County, California.
Public notice is hereby given that on Thursday, the 18th day of February, A. D. 1915, at 10 o'clock a. m. of said day, I will proceed to sell at the south door of the court house, in the city of Santa Ana, at public auction, to the highest bidder for cash, in gold coin of the United States, all the above described real estate, or so much thereof as will be sufficient to satisfy said decree for principal, interest and all costs.
Given under my hand this 19th day of January, A. D. 1915.
C. E. JACKSON, Sheriff.
By A. K. CRAVATH, Deputy.
DANIEL A. CASEY, Attorney for Plaintiff.

SECRET OF BEING YOUNG
San Francisco Bulletin

The valuable quality of youth is its capacity for new experiences. Everything is new to a baby; every breath is an adventure; every cry is a challenge hurled at the infinite. A boy's world is fascinating and limitless. A young man's world is a new country, to be explored and conquered. It is only the old men's worlds that are all discovered, mapped, developed, with no unknown lands and no mysteries.

But these distinctions are not always distinctions of age. Some babies are born old and cynical. A rattle to them is not the symbol of all mystery, of all music, of all art, of all that makes life worth living—it is nothing but a rattle, which, being shaken, produces a pleasing but by no means unexplainable titillation of the ear drums. When these babies grow up they seem to prove the theory that man lives many times upon this earth. They act as if they had been living for centuries. They are never surprised at anything. They are never very curious about anything. They never investigate anything. They neither see, nor hear, nor touch, any more than is absolutely necessary. But the people that are born young, and stay young! Life thrills them from the start. To cry is self-expression, on a plane no whit lower than the singing and piano playing of older persons. To discover a toe is as remarkable a feat as to discover a north pole or a brand new continent. To fall out of a baby carriage is to know every emotion of the mountain climbing or aviator. To pursue a cat and twist its tail is to hunt tigers in the wild, aboriginal, autogenous, untamed forest. These are the people who skim the cream of life. They could live to be as old as Methuselah and never really be old.

MODERN MEN
From Collier's Weekly

The great war has proved one thing at least: The enduring bravery of mankind. Military writers of a few years ago were skeptical about the soldierly qualities of modern city dwellers, believing that our urban civilizations must necessarily sap the fighting spirit and perhaps overcome it entirely. The present struggle has ended all that sort of comment. Whether Belgian, English, French, or German, these cities and factory hands can hold their souls in strength, and on the given word can charge and die as valiantly as any Spartan. The appalling noise and carnage wrought by modern artillery results in some cases of nervous breakdown, but very few in comparison with the numbers engaged, and by no means producing effect enough to insure the success of the assault following the cannonade. The modern soldier simply digs his trench the deeper and holds on to meet the attack. The big guns are called by opprobrious and contemptuous nicknames, such as "Black Marias," "soup steamers," and the like. Napoleon said that the rarest sort of courage is four-o'clock-in-the-morning courage but there is lots of that in the trenches along the French border. The Germans have systematically made many of their most determined assaults in the small hours following midnight, but these have been met as calmly and effectively as if under the noonday sun. It will be interesting to see how the psychologists will account for this, whether it may be ascribed to the very deadliness of modern weapons, or to the decay of superstition, or to more occult causes. This much is certain: Modern men are worth saving for a better life on earth than many of them have had.

A remarkable man is one who does a remarkable thing and doesn't talk about it.

PLACENTIA'S MAIN STREET TO BE PAVED
Placentia Courier: Definite arrangements for the paving of Santa Fe avenue were concluded this week and Contractor Hubermann will begin work at once.
Property owners in the two blocks between Bradford and Melrose have agreed to bear the cost of the paving and the county will pave the inter-

sections. The paving of the main business street will be a great forward step in the sturdy growth of Placentia and in connection with other promising propositions coming to a favorable conclusion in the future will add greatly to our population and prosperity.

The man who makes light of other peoples' troubles usually swears at his own.

Pre-Opening Sale of Lots in Polytechnic Villa Subdivision
We have taken the exclusive selling agency of this subdivision, and for a limited time can offer a small number of lots in this restricted district at a great discount, upon easy payments with low rate of interest. The sewers, water and gas are already in, and these lots will be sold with a guarantee from owners that streets will be graveled and oiled, that all sidewalks and curbing will be built, that parking will be completed and that trees will be planted.
While Improvements are being completed
20% discount from list prices will be given to the first ten persons buying lots!
For the purpose of securing the erection of a few houses:
40% discount from list prices will be given to the first five persons buying lots on which houses are erected within ninety days from date of purchase.
All lots in this entire subdivision will be sold under restrictions, which means that the POLYTECHNIC VILLA SUBDIVISION will soon become one of the best residential districts of Santa Ana, and under this very liberal proposition anyone desiring a home can secure it with a cash payment of only 60 per cent of value of lot and a monthly payment very little, if any, more than rent. To persons desiring to make a quick profit on a small investment, this is their chance if they come in time. We will be pleased to show these lots with auto and explain terms of payment at any time. If purchaser pays for lot and has not the money to build a house we will loan the funds necessary on easy monthly payments.

TOROSA REBEKAHS

District Deputy President Has Charge of Beautiful Installation Services

A large company of the members of the Torosa Rebekah lodge and visitors from various out-of-town chapters, enjoyed the beautiful and impressive installation services of the Torosa Rebekah lodge, last evening, at the I. O. O. F. hall.

District Deputy President Maude L. Bolton of Huntington Beach had charge of the services which were conducted with the highest skill. Mrs. Maggie Moore, Mrs. French, Mrs. Criley and Mrs. Godfrey, members of her staff of officers, were also most welcome guests.

Mrs. Ila Bishop acted as Deputy Grand Marshal and the following officers were installed:

Noble Grand—Ella B. Fouch.
Vice Grand—Clara V. Bullock.
Recording Secretary—Mary E. Shaw.
Financial Secretary—M. Beatrice Schnee.

Treasurer—Stella M. Wilson.
The appointed officers are:
Warden—Lutia Lyman.
Conductor—Belle Buck.
Chaplain—Leota Walker.
Inner Guard—Laura Walker.
Outer Guard—Ila Bishop.
Right Support to Noble Grand—Mary S. Ford.
Left Support to Noble Grand—Ida Carey.

Right Support to Vice Grand—Sarah Utley.
Left Support to Vice Grand—Gertrude Kendig.

Altar Supporters—Ella Mitchell and Pearl James.
Finance Committee—H. Allen, Emily Annie and Pearl James.

Banned Bearers—Edmonia Robinson, Dorothy Forecey, Lottie Morris and Ethel Slocum.

Musicians—Mary Blanchard.
In behalf of the elective Torosa officers, Mrs. Mary E. Shaw presented the district deputy president with a beautiful brooch and Mrs. Bolton and Mrs. Sarah E. Flowers, grand warden of the state assembly from Long Beach, were both complimented by the presentation of two lovely flower bouquets.

After the installation services, the company repaired to the banquet hall, decorated with a profusion of calla lilies and roses, and here they enjoyed a supper of roast beef, creamed potatoes, hot rolls, omelets and cake, served by the committee, composed of Mesdames Ida Carey, Laura Walker and several assistants.

The evening will long be remembered by all who attended, as being one of the most enjoyable in the lodge's history.

Cooked Food Sale
The ladies of the First M. E. church will hold another of their popular cooked food sales, Saturday, at the Hill & Blauer grocery store, in the Spurgeon building.

Entertained at Whist
A gay company of young people assembled, Tuesday evening, at the Camille street home of Mrs. E. E. Stevens, Misses Lucy Stevens and Irene Edwards, to enjoy a session at whist.

Music entertained the guests while playing their favorite card game and late in the evening, refreshments were served.

Those present besides the hostesses were Mr. and Mrs. Joseph Babbitt, Mrs. L. Mentzer, Miss M. F. Berger, Messrs. J. A. Williams, L. Mitchell, Bert King and Ray Dean.

Party Postponed
The social which was to have been given Friday evening by the Philathea class of the First Presbyterian church, has been postponed indefinitely. The Christian Endeavorers had previously planned a party for that night.

In Honor of House Guest
A pleasant Kensington was given Tuesday afternoon by Mrs. Mac O. Robbins, 2063 Main street, the affair complimenting her aunt, Mrs. Frances Hope, who is visiting here from Berkeley.

The ladies were entertained at their needlework, by a variety of delightful readings given by Mesdames O. M. Robbins and Nannie E. Todd, the former's contributions being exceedingly mirth provoking.

During the social hours, light refreshments were served on individual trays. Those enjoying the afternoon affair with their hostess and visitor from the North, were Mesdames O. S. Catland, O. M. Robbins, L. P. Hickox, Will Taylor, W. W. Crozier, Frank Taylor, J. H. Garnett, Nannie E. Todd and Margaret Stewart.

Date of Japanese Tea Changed
The Japanese tea, with which Mesdames Russell Scott, Fred Parsons and Robert Shafer have planned to entertain the Second Household Economics Section, will be given next Tuesday, February 2, instead of on Wednesday. The attention of all members is called to this change of date.

At County Club
Accepting the hospitality of Mrs. H. D. Connell, a congenial group of Santa Ana ladies spent a pleasant afternoon yesterday at the Country Club.

The guests were served with a delicious 1 o'clock luncheon at the club house, after which they walked away the afternoon hours at auction bridge, an appropriate prize being captured by Mrs. L. A. Colver, who held high score, and Mrs. Parke S. Roper, who won the consolation trophy.

Those who were privileged to enjoy this entertainment were Mesdames John Tubbs, M. A. Yarnell, Will Huff, Parke S. Roper and L. A. Colver.

New Class in Journalism
On account of the crowded condition of E. J. Paige's class in journalism, another class will be started Monday evening at 7 o'clock in room 26.

Work at the Intermediate night school will begin Friday. The class in French will begin at 7 o'clock, and it fifteen have been enrolled for Spanish (there are now twelve enrolled), this language will be taught at the same period.

At 8 o'clock E. M. Nealley will begin his instructive course of economics.

January Ebell Meeting
The regular January meeting of the Ebell Society will be held Saturday afternoon at Elks' hall.

Miss Jean Farley of the Cummock School, Los Angeles, will entertain with the humorous reading entitled "Dolly Reforming Herself."

Attention is called to the fact that admission is had only by membership of guest cards.

'SOME' CLASSES, THESE!

Popular Sunday School Teachers Give Dinner Party at Ben Blee Home

Mr. and Mrs. Ben Blee and Mr. and Mrs. John Hawley entertained two of the young people's Sunday school classes of the First Presbyterian church at the home of Mr. and Mrs. Blee on South Artesia street, last night.

The merry bunch of young folks gathered at the church about 6 o'clock and were taken to the Blee home in machines. Shortly after arriving they were invited into the large dining room where there were three large tables, brilliantly lighted with lavender-shaded candles and decorated with bouquets of fragrant heliotrope, hyacinths and maidenhair ferns.

Places at the tables were marked by pretty little hand-painted cards, in violet design and as soon as all were seated Rev. Stevenson offered the blessing and the merry feast started, which consisted of the following:

Fruit Cocktail
Chicken Patties
Baked Potatoes on half shell
Hot Rolls
Olive Green Peas
Fruit Salad
Cranberry Sauce
Plum Pudding
Mints
Wafers
Coffee
Chocolates

After all had eaten a great sufficiency, Donald Stevenson, toastmaster, made an opening address that would have been a credit to that admirable "star" toastmaster, his father, and called on Mrs. Hawley to tell "why Sunday school teachers should give such parties." She answered it by saying that it was "such an inspiration to see the happy faces of young folks after they had had enough to eat."

The rest of the feast was as follows: Mr. Blee, on "The Prospects for Our Classes in the Coming Year," Rev. Stevenson gave a clever little talk and expressed his desire to see more Sunday school teachers like Mrs. Hawley and Mr. Blee.

Mr. Hawley talked on the future outlook of the young men. Harry Kendall told how his new Studebaker could beat Stevenson's Kissel Kar, which was rebuked by Stevenson, so they are going to try it out some day. However, they do not expect to break any world's records. Last but not least was the toast from the president of the class, Mr. Stanley Mansur, who told a story about the early life of their teacher, Mr. Blee. He also proved to them that there were gods in heaven and after the laughter had ceased, he expressed thanks, in behalf of the class, for the splendid supper.

After all jokes and stories were exhausted the company adjourned to other rooms of the house and played progressive rook, which took up the remainder of the evening. Those present were Mr. and Mrs. Blee, Mr. and Mrs. Hawley, Rev. and Mrs. Stevenson, James Stevenson, Misses Gussie Burns, Ethel Rogers, Cecil Gross, Fannie Kingsbury, Esther Zimmerman, Irene Ashley, Alpha Henry, Evelyn Gail, Mildred Heninger, Florence Miller, Vivian Talbot, Zella Darnell, Eleanor Ross; Messrs. Stanley Mansur, Eugene Eckley, Harry Kendall, Gordon House, Donald Stevenson, Melton Hatch, Robert Hill, James Vance, Paul Plavan, Perry Thomas, Charles Jackson, Charles Herr, Palmer Lee, Calvin Landwehrbach.

Quiet Church Wedding
A quiet wedding, performed by Rev. Paul E. Wright, at 8 o'clock last evening at the First Christian church, united in marriage Miss Grace W. Clement and Leon M. Combs, both of this city.

The bride, a lovely young woman, who has lived in Santa Ana since childhood, was attired in a tailored suit of dark blue broadcloth with becoming accessories. She was attended by her sister, Miss Corinne Clement, while L. A. Williams acted as best man. Mr. and Mrs. Charles Combs, parents of the bride groom, also witnessed the pretty ceremony.

Immediately after their marriage, Mr. and Mrs. Combs left on a honeymoon trip to parts unknown, and on their return they will reside at the Mission Apartments, where they will be "at home" to their many warm friends who wish them happiness and prosperity.

Neighborhood Meeting
Mesdames E. A. Hedrick and W. R. Newman delightfully entertained their division of the Baptist Neighborhood Society, yesterday afternoon at Mrs. Hedrick's pleasant home, 601 South Birch street.

Roses and geraniums and a cheerful fire added to the attractiveness of the chosen meeting place and the "get acquainted" purpose of this society chat and sewed, together.

Miss Oleen Wilbur gave several pleasing piano numbers and Mrs. Roy Hall was chosen for the office of secretary, with Mesdames L. W. Beebe

Choice of any men's \$18.00 pure wool suit in our stock at

VANDERMAST & SON
THE HOME OF GOOD CLOTHES FOR MEN AND BOYS

and E. A. Hedrichs as Neighborhood leaders.

Mrs. O. S. Catland, the former general supervisor, gave a pretty farewell talk and the meeting closed with the serving of a delicious collation.

Twenty-five ladies enjoyed the social afternoon.

Personals

Miss Anna Witt is spending a few days in Los Angeles with her sisters, Mesdames M. Mohen, E. T. Washington and Miss Clara Witt.

Mr. and Mrs. F. E. Cloyes of Long Beach are visiting Santa Ana relatives.

Miss Bessie Craemer of Riverside arrived in Santa Ana yesterday for a visit with her aunt, Mrs. Alice Brummell.

Mr. and Mrs. T. P. Kingrey and Little son, Doral, have returned from a week's stay at Banning.

W. L. Deimling made a business trip to Los Angeles this morning.

James Harding was among the Santa Anans who visited today in Los Angeles.

Mrs. W. M. Kirk of South Sycamore street is enjoying a visit with her daughter, Mrs. R. G. Holcom, of Los Angeles. Mrs. Holcom's son, Gordon, is also here.

R. J. Bernard of Oakland is in Santa Ana this week, looking up old friends.

Mrs. W. W. Paul of Hayes, Kan., is visiting at the home of C. E. Isaacson.

Louis H. Jackson of Hemet is a guest at the home of Mr. and Mrs. Carey R. Smith, 1308 North Main street.

Miss Nellie Wetherstrom is spending a few days with friends and relatives at Riverside.

Mesdames Mary E. Clark and J. I. Clark went to San Diego yesterday for a few days' visit.

Mrs. Clara Mitchell and little daughter Veda, of South Broadway, have been released from quarantine and are now staying with Mr. Mitchell's parents. The many friends of little Veda are glad to know that she is convalescent, after her seige of scarlet fever.

MASONIC NOTICE
Santa Ana Lodge, No. 241, F. & A. M., will confer the Second Degree of Masonry, Friday, January 29th at 7:30 o'clock. Visitors Welcome.

FIVE CENTS PROVES IT
—A Generous Offer. Cut out this ad, enclose with 5 cents to Foley & Co., Chicago, Ill., writing your name and address plainly, and receive a free trial package containing Foley's Honey and Tar Compound, for coughs, colds and croup; Foley Kidney Pills, for kidney and bladder complaints, backache, pains in joints, rheumatism; and Foley Cathartic Tablets, a wholesome and thoroughly cleansing cathartic—try all three for 5 cents, the cost of mailing. Sold by all druggists.—Advertisement.

TRY THIS FOR NEURALGIA
Thousands of people keep on suffering with Neuralgia because they do not know what to do for it. Neuralgia is a pain in the nerves. What you want to do is to soothe the nerve itself. Apply Sloan's Liniment to the surface over the painful part—do not rub it in. Sloan's Liniment penetrates very quickly to the sore, irritated nerve and allays the inflammation. Get a bottle of Sloan's Liniment for 25c of any druggist and have it in the house—against Colds, Sore and Swollen Joints, Lumbago, Sciatica and like ailments. Your money back if not satisfied, but it does give almost instant relief.—Advertisement.

DEALERS IN OPIATES MUST REGISTER WITH FEDERAL GOVERNMENT

Local druggists, physicians, surgeons, dentists, veterinarians and all others who deal in opium or any of its derivatives, such as morphine, codeine, heroin, cocaine and coca leaves, have received notice of the new federal law which requires that they register their names and places of business with the government internal revenue department.

Any must be registered by February 26, as the new law requiring registrations goes into effect March 1. A federal drug register must be kept in compliance with the latest special tax act, which provides for the regulation of traffic in injurious and poisonous opiates.

Including Los Angeles, the southern district of California is supposed to contain more than 3000 druggists, physicians and surgeons.

The operation of the new law will be similar to that of the internal revenue on liquors.

Under the new special tax act physicians must use for their prescriptions special blanks furnished by the government. They can no longer use blanks furnished by the druggists.

TENNIS PROSPECTS AT POLY HIGH ARE GOOD

Much interest is being shown in the annual school tennis tournament. Playing in the first round will start next week.

There are thirty-eight entries and these promises to be many a hotly-contested match before the school championship is decided.

Melton Hatch, last year's champion, and Irving Burns, the runner-up in last year's tournament, are both out for blood. Chief among the other aspirants to the title are the following: Keith Davis, Fred Forky, Bob Hill, Basil Smith and Hugh Gale.

This tournament will be an important factor in determining the four men who will represent Santa Ana in tennis this year.

The first outside tournament is scheduled with Pasadena for February 13 and will be played on the Hotel Huntington courts, Pasadena.

The prospects for a successful season are very bright—far brighter than they were last year.

FREDERICK WARDE THE GREATEST MODERN ACTOR

Frederick Warde, the peer of American tragedians, was shown in five reels of wonderful films at the Temple Theater last night in a crowded house, in what is considered Shakespeare's greatest work—that of "Richard the Third."

This is the only motion picture that Frederick Warde has ever appeared in and proves without a doubt that the feature motion pictures are becoming more popular each day.

"Richard the Third" will be shown at the Temple Theater again tonight, for the last time, and should be seen by every one.

For Friday and Saturday Paul Dickey and Chas. W. Goddard's thrilling photoplay drama, "The Ghost Breaker," will be shown.

PEOPLE IN SANTA ANA ARE AMAZED

No medicine has ever caused such amazement in Santa Ana as the simple mixture of buckthorn bark, glycerine, etc., known as Adler-ika. This remedy drains such surprising amounts of foul matter from the body that it is known as the most thorough bowel cleanser sold. Adler-ika acts on BOTH the upper and lower bowel and JUST ONE DOSE relieves constipation and gas on the stomach almost IMMEDIATELY. Rowley Drug Company.

HOW TO CURE A LA GRIPPE COUGH

"Coughs that hang on" demand treatment. Stop and think! Reason and common sense tell you that it is folly to "grin and bear it." Those raging la grippe coughs that wrench the body and cause soreness and pains in the lungs, yield more quickly to Foley's Honey and Tar than to any other treatment. Forty years' record of successes proves this. For coughs, colds, croup and other distressing ailments of throat, chest, lungs, larynx and bronchial tubes, you can find nothing that will compare with this reliable remedy.—Advertisement.

NOTICE TO THE PUBLIC

A LIVE SPORT LETTER

By Hal Sheridan

NEW YORK.—The nearer the time for the swinging open of the ball gates approaches, the more it looks like Boston will make a family party out of the 1915 world's championship series. This isn't a forecast but one of the surmises most generally surmised when scribblers get together.

The sad part about it from the magazine's viewpoint is the apparent fact that the races in the two majors may not be hot enough to arouse interest and coin. The team that can beat the Braves out of the pennant hasn't put itself together on paper thus far, and on their performances toward the tail-end of the 1914 season the Red Sox are being generally picked to cop the American league pennant this year.

McGraw's admission that the Giants will look about the same as in 1914, plus Hans Lobert and with probably a slightly weaker hurling staff arouses no pennant hopes here. The Chicago Cubs may work wonders for their new pilot, Roger Bresnahan, and the Cardinals may stir up trouble despite Federal raids, but it looks like smooth waters for Mr. Stallings.

Over in the Johnson organization, the dope isn't quite so certain. The disintegration of the Athletics causes the experienced to throw the Mackmen out of consideration at the start. Walter Johnson having hopped back, the Washington team should make a strong bid. Chicago, under a radical managerial shake-up but with Eddie Collins doing turns at second, is one of the unknown and, possible quantities to be reckoned with in the pennant hunt. But the argument seems to favor Boston again.

Various reports are coming from Cambridge with reference to Charles Brickley, Harvard gridiron star, who was said to have decided to coach one of several middle-western schools that bid for his services. One story has it that Brickley will assist in the coaching at Harvard next fall.

KETTNER FAVORS YOUNG FOR JUDGE

San Diego Congressman Said
to Be Urging Appointment
of Former Missourian

SAN DIEGO, Jan. 28.—Democrats throughout Southern California are watching with bated breath the president's choice of a judge of the federal court for the southern district of California to succeed Olin Wellborn, whose resignation takes effect January 31.

There are candidates galore. These are seeking endorsement of Democratic bodies wherever such organizations are supposed to exist.

According to announcement, Judge Wellborn, would like to see the plum fall to his son, Charles Wellborn, who is considered by the Wellborn family versed in the federal laws sufficient to dispense justice.

Considered as elements to be reckoned with are the endorsements of Congressman William Kettner, Senator James D. Phelan and Congressman Denver S. Church. The San Diego congressman, although a good Democrat, was elected by Republican votes. News comes from Washington that he favors the candidacy of

WHAT WILL RELIEVE STOMACH TROUBLE

A Hard Question—But This
Retired Ohio Farmer
Answers It—Mr. Matteson's
Statements Are Reliable.

Upper Sandusky, Ohio.—"I suffered from nervous dyspepsia and stomach trouble so that large lumps would seem to come up in my throat, and would get so dizzy I could not stand up or even see. I tried different remedies but nothing seemed to help me until one day my druggist told me about Vinol. I tried it and soon noticed an improvement and now I am well."—IRA T. MATTESON, Upper Sandusky, Ohio.

Vinol seldom fails to strengthen and tone up the tired, overtaxed and weakened nerves of the digestive organs and remove the cause of indigestion and soon enables the sufferer to digest with ease the foods that once caused distress. Vinol also creates a healthy appetite and builds up the weakened run-down system.

We have such faith in Vinol, our delicious cod liver and iron tonic without oil, that we ask every person in this vicinity suffering from nervous dyspepsia or stomach trouble to try Vinol on our offer to return their purchase money if it fails to benefit.

Rowley Drug Co., Santa Ana, Calif., and at leading drug stores everywhere.

Sunday School Canvass Now Under Way All Pastors of County Are Co-operating

Sample of Record Card on Which Information is Secured.

Ward, 7 Block, 186

The county-wide canvass by the Sunday school workers has enlisted the most hearty co-operation of all the pastors of the county.

In the canvass more than 1100 Christian workers from various churches throughout the county will be used.

The county has been subdivided into twenty-two districts with an efficient leader supervising each so that every section will section by section be personally looked after. This will assure thoroughness in the work.

The information secured by this movement will be of great value to the Sunday schools and churches of the county. The pastors have found it very helpful, whenever used before.

in furnishing them their information through the united effort of a few hours' labor that would otherwise take them many months to secure. The churches are thus put in touch with all newcomers.

There is no place where a canvass of this character is more needed than in Southern California, where the population is growing so rapidly and so constantly changing.

"We would like to call the attention of each one who expects to participate in this canvass," said Rev. Paul G. Stevens, president of the Sunday School Association, "to the home visitor's card which is shown above. All would do well to carefully study this card, which is completely filled out, so as to preclude as far as

possible any mistakes. "Special care should be taken in getting the proper address. If the parties are not at home, workers should get what information they can from the neighbors.

"We most earnestly request all to be as helpful as possible to the canvassers by furnishing them the best possible information.

"All the workers are urged to promptly return the filled-out cards and other literature to the leaders so that they may be brought to the headquarters of each district."

It has been decided that should it be stormy Saturday, January 30, the canvass will be made one week from Saturday. If postponed the date will be February 6.

PLACENTIA GIRL IS BURNED TO DEATH

Clothing of Miss Marguerite
Allec Ignites From Spark
From Wood Fire

Anaheim Gazette: Miss Marguerite Allec, aged 15 years, daughter of Mr. and Mrs. Peter Allec of Placentia, was fatally burned at her parents' residence in Placentia on Friday morning at half-past six o'clock. She had arisen,

had made a fire in the kitchen stove, and was preparing school lunch for the children, when her twelve year old sister Delilah, who was standing near her called to her that her dress was on fire. The unfortunate girl was standing at the sink at the time, and it is presumed that a spark from the stove ignited her clothing. She immediately ran out of the house calling to her parents for help. A wind was blowing at the time, and fanned the fire into flames which instantly enveloped her. Her parents had not yet arisen, but went at once to her rescue. They were horrified to behold the little girl one mass of flames. They tore her clothing from her and extinguished the flames as speedily as possible, but she was so badly burned that death ensued at half-past one o'clock on Sunday morning.

Funeral services were held at St. Boniface Catholic church at 10 o'clock Monday morning. Rev. Father Gallagher of Fullerton being in charge.

Some years ago Mr. and Mrs. Allec lost a six-year-old son, who succumbed to lockjaw as a result of stepping on an orange thorn.

STOP THE CHILD'S COLDS
THEY OFTEN RESULT SERIOUSLY
Colds, Croup and Whooping Cough are children's ailments which need immediate attention. The after-effects are often most serious. Don't take the risk—you don't have to. Dr. King's New Discovery checks the cold, soothes the cough, allays the inflammation, kills the germs and allows Nature to do her healing work, see at your Druggist. Buy a bottle today.—Advertisement.

NOT AN ISOLATED CASE

Many Similar Cases in Santa
Ana and Vicinity

This Santa Ana man's story given here is not an isolated case by any means; week after week, year after year, our neighbors are telling similar good news.

F. L. Sexton, retired farmer, 1129 W. Second St., Santa Ana, says: "Off and on I was troubled by a dull pain in the small of my back. I thought the complaint was due to disordered kidneys. When I saw Doan's Kidney Pills recommended, I tried them. I soon got relief. Another of my family has also had splendid results from Doan's Kidney Pills. They relieved her of backache just as quickly as they did me. I haven't had any need of Doan's Kidney Pills since I first used them. I take pleasure in confirming the endorsement I have given Doan's Kidney Pills several years ago.

Price 50c. at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Sexton had. Foster-Milburn Co., Props., Buffalo, N. Y.—Advertisement.

"Here is the Answer" in WEBSTER'S NEW INTERNATIONAL

THE MERRIAM WEBSTER

Every day in your talk and reading, at home, on the street car, in the office, shop and school you likely question the meaning of some new word. A friend asks: "What makes mortar harder?" You seek the location of Lockport in the pronunciation of injunctum. What is white coal? Los Angeles Produce Market

Although the flour market has been quiet for an entire week and no advances or declines have been reported, the effects of higher flour are beginning to be felt in other lines than mere bakery products. For the first time in many years, manufacturers of macaroni, noodles and similar articles have had to advance their prices. Manufacturers of starch and corn products have had to advance prices also. The Pacific Northwest, which produces the bulk of the wheat crop on the coast has been shipping great quantities of wheat to Australia, which country had a short crop last year. The price paid for some grades of wheat in the northwest has exceeded considerably the quotations of the Chicago grain market. The market on flour here continues steady despite the daily price variations in the east, some of which point downward.

Receipts of local eggs were 372 cases. This fact, with lower prices in the north and an endeavor on the part of dealers holding the little remainder of the cold storage stock, to clean up, brought case count down to 26 cents here and 27 1/2 in the north. Storage eggs are moving from 20 to 25 cents a dozen, according to quality. Another two weeks will see the market down around 20 cents on fresh eggs, although some dealers believe there will be little stock at this price on account of the high price of feed this year.

"GO slow. Keep to the right." That's a good slogan for LIFE'S WHOLE JOURNEY as well as for the passing moment in the street. CAUTION and CORRECTNESS in financial dealings, in physical well being, in moral and mental attitudes, are splendid attributes. This bank goes slow. It keeps to the right. It fills EVERY FUNCTION of BANKING with caution and correctness. Do YOUR banking with us and benefit by our caution.

PLANT ALMONDS

On this continent Almonds are only grown in California and the U. S. market alone demands four times the present supply. Plant almonds at Templeton or Paso Robles and make money—it's a cinch.

PLANT PEARS

for profit! California Bartlett Pears are in a class by themselves and monopolize the market. Did you know that? Templeton-Paso Robles district produces the fancy grade of Bartlett, Winter Nellis and Du Comice.

PLANT CHERRIES

They are the most attractive and the best fruit of the summer season, and are very profitable. Soil and climate near Templeton produce a fine quality. Trees forty years old in family orchards are the indisputable evidence.

PLANT PRUNES

The Prune industry of California ranks first in the world, over one-half of the world's product being grown in California, and the dried product now finds a ready market in all countries. Prunes grown near Templeton are rich in sugar, fine of flavor, good size, and lose less weight in drying because grown without irrigation.

PERHAPS

you are more familiar with Apple and Walnut growing. Come to the office and let us show you Apples and Walnuts grown there. We also have a lot of views which will give you a good idea of the beauty of the country, and we want to tell you what's doing and who is doing it. We've also some cracker jack little stock ranches, combination of alfalfa, grain and fruit land, with some pasture land—live creek and springs, oak trees for beauty, shade and fuel, etc. Prices under actual value.

Write Your Friends in the East

and tell them that CALIFORNIA'S TWO GREAT 1915 EXPOSITIONS at San Francisco and San Diego will open on schedule time.

There will be NO POSTPONEMENT on account of the European war or for any other reason. Ask each of them to mail a postal to Some One Else, and the Mail Man will spread the news.

OPENING DATES AND DURATION OF EXPOSITIONS:

Panama-Pacific International Exposition of San Francisco
February 20 to December 4, 1915

Panama-California Exposition at San Diego
January 1 to December 31, 1915

Here are some convincing facts concerning the great Exposition at San Francisco: Not one of the 42 exhibiting foreign nations has withdrawn, while three of them have increased their participation. Seven nations involved in war and five neutral European nations will have their own buildings. Exhibits from eleven foreign countries have already arrived. Forty-three of our states and one city are making individual exhibits. Finally, these exhibitors are spending more money than previously expended in any two other expositions.

Supervisors Visit Los Angeles
Good Roads Repairing Out-
fit on the Job

With more confidence than ever that their plan of maintenance of good roads is going to work out with excellent results, Supervisors H. E. Smith, T. B. Talbert, William Schumacher, F. W. Struck and Jasper Leck returned yesterday from a trip to Los Angeles county. They looked over the repair outfits used by Los Angeles in that county's work upon the surface of its good roads, and made a day's study of the problem of mixing oil and rock and applying it to worn spots on pavement.

Los Angeles is using one of the simplest methods possible in some of its repair work. That is to mix the oil and crushed rock by hand, carry it in buckets to the bare surface and apply it by hand. The Orange county men are convinced that this method, while simple, is also expensive. The number of men employed makes the labor a big item.

Los Angeles county has a machine with which it has been doing some repair work where a goodly portion of the surfacing has been removed and is to be replaced. This machine has imperfections, and the Orange county men are confident that they will have

one that will be better.

"We will be able to do a great deal more work at far less expense," said Supervisor Talbert.

"That is true," said Supervisor H. E. Smith. "We will work out a good department, and take care of our roads all right."

One of the supervisors was asked if he thought the method of repairing the surfacing would work out better than to follow the suggestion that the present surfacing of rock and oil be torn off and asphalt applied, and the answer was positively to the effect that the maintenance of the present surfacing was preferable.

The supervisors have been making a close study of the good roads maintenance problem. They have had two demonstrations of a machine that has been constructed by J. E. Ward of Long Beach, but as yet the machine has not been shown to be exactly what the board wants.

TWO-STORY BUSINESS BLOCK FOR PLACENTIA

Courier: Fred Cline will begin immediately the erection of a two-story business block 27x60 on his lot on the south side of Santa Fe avenue between the Stradley and Marter blocks.

The structure will be of frame with a brick front to harmonize with the other brick business blocks on that street.

The store room below has been leased for five years to J. E. Hutchins who expects to conduct therein a first-class cash grocery. A large and select stock to suit the needs of the community will be carried and prices are expected to attract the best patronage from a wide radius.

Mr. Cline has sold his residence on Main street to W. H. Hart and will complete the second story as a very commodious and comfortable and most modern living apartments for his family.

This will be the second largest business block erected here during the recent hard times period and is but the forerunner, it is rumored, of other large developments in the near future.

John Bull—"We'll keep on searching your cargoes until we make a live feast out of this matter."

TO PUT ON FLESH AND INCREASE WEIGHT

A Physician's Advice

Most thin people eat from four to six pounds of good, solid fat-making food every day and still do not increase in weight one ounce, while on the other hand many of the plump, chunky folks eat very lightly and keep gaining all the time. It's all bosh to say that this is the nature of the individual. It isn't Nature's way at all. Thin folks stay thin because their powers of assimilation are defective. They absorb just enough of the food they eat to maintain life and a semblance of health and strength. Stuffing won't help them. A dozen meals a day won't make them gain a single "stay there" pound. All the fat-producing elements of the food just stay in the intestines until they pass from the body as waste. What such people need is something that will prepare these fatty food elements so that their blood can absorb them and deposit them all about the body—something, too, that will multiply their red blood corpuscles and increase their blood's carrying power.

For such a condition I always recommend eating a Sargol tablet with every meal. Sargol is not, as some believe, a patented drug, but is a scientific combination of six of the most effective and powerful flesh building elements known to chemistry. It is absolutely harmless, yet wonderfully effective and a single tablet eaten with each meal often has the effect of increasing the weight of a thin man or woman from three to five pounds a week. Sargol is sold by good druggists everywhere on a positive guarantee of weight increase or money back.—Advertisement.

YORBA LINDA MEETING PUT OFF ONE WEEK

The meeting of the Associated Chamber of Commerce, scheduled for tomorrow night at Yorba Linda, has been postponed one week. The condition of the roads is such that it was thought advisable to postpone the meeting, which is an important one. It was also thought unfair to the Yorba Linda people to have the banquet tomorrow night as with stormy weather it would be impossible to give an advance estimate of the attendance, so that preparations could be made for the banquet.

IN THE JUSTICE COURTS WHO SEIZED THE AX THAT CUT CLAUDINA?

Question is One That Will Determine Guilt in the James Tennant Case

That James Tennant, street superintendent of Fullerton, and Frank Claudina, a resident of Fullerton, had a fracas is not denied. Neither is it denied that the two men had an ax, and that each grasped the ax, and that they struggled back and forth, and "lastly but not least" that the sharp edge of the ax struck Claudina on the head and cut a hole in his scalp.

But who really seized that ax with the determination of using it upon the other fellow?

Justice Cox is in the process of finding the answer. Yesterday Claudina, G. S. Watkins, Dr. G. C. Bryan, Thomas Sylvester and Dave Smith, all from the capital city of the oil district, were aboard the witness stand in the Santa Ana township case.

Only one of them got within the realms of the real answer. Tennant is accused of attacking Claudina with a deadly weapon. Tennant declares that the wrong party is arrested, that it either should be prosecuted his name is not Tennant. The one person who got close to the answer to the main question was Dave Smith.

His story was that the ax was on a pile of sacks in Claudina's barn, in which the fracas occurred, the reason being a disagreement over some trash that Claudina is supposed to have left on the street. The two men got hold of the ax. Smith knew that much about it. He saw them lay hold of the handle and struggle, and after Claudina's head was cut, Tennant gained possession. Tennant did not proceed to expose Claudina's brains to view. He tossed the ax to one side. In fact, he threw it a distance of ten feet. Smith ought to know, because it hit him on the shin.

The story of the fracas is not yet all told. Further hearing on the preliminary examination was postponed to February 23 at 9 o'clock.

AT THE COURTHOUSE GEORGE SHELTON'S ESTATE IS \$4,000

Today Mrs. Anna G. Shelton, through Attorneys Williams & Rutan, applied for letters of administration upon the estate of George E. Shelton. The estate is valued at \$4,000. Shelton was a linotype machinist of the Santa Ana Blade.

Divorce Action
Suit for divorce has been brought by Anna Baker against John S. Baker. Williams & Rutan are attorneys for the plaintiff.

Want It Specific
A motion for an amendment of judgment has been made by Attorneys Williams & Rutan, Head, Bishop and others representing the twelve plaintiffs in the Birch oil cases. The judgment was that the demurrer of the defendant to the second amended complaint had been sustained, and that leave to amend had been denied. The attorneys for the plaintiff declare that they were willing to give up the right to amend only in case the judge should rule that there was not sufficient cause for action or that the statute of limitations prevailed. They ask that the judgment specify the reason for the sustaining of the demurrer. The plaintiffs also deny that they

Charged With Stealing 1200 Pounds Of Cyanide

On a charge of stealing 1200 pounds of cyanide from the packing-house of the Valencia Foothills Orange Growers Association at Orange, Vernon Thompson, Willard Shadel and Carley Sutton of Orange were arrested at Orange today.

The cyanide was stolen from the packing-house on Chauman street, Orange, early this month. There were six boxes of the poison, 200 pounds to the box, altogether worth about \$350. The cyanide had been bought by the association for distribution among members of the association to be used in fumigation of trees.

City Marshal Crawshaw is responsible for the arrests. He suspected the three, and watched them. According to information given out by him, the

should be held for the costs as put in by the defendant. Each plaintiff's cost, payment of which is requested by the defense, runs from \$65 to \$105. The motion to relax costs is made on the ground that the taking of depositions by the defense was not necessary.

For Right of Way
The district attorney's office has filed an action for the county against Margaretha Stadteger. The action is for the purpose of condemning a road right of way in the Yorba Linda section.

Marriage Licenses
Roy M. Hamby, 22, and Maudie M. Shepherd, 19, both of Fullerton; Leon M. Combs, 24, of Santa Ana, and Grace V. Clement, 24, of West Orange.

For identifying criminals a French physician has suggested a subcutaneous injection of wax to form a permanent membranous cyst.

Canal isn't wide enough for the Colonel and Taft to go through on the same ship.

LOCAL GOLFERS ARE GAINING CONFIDENCE

Though They're Tail-Enders in
Association, They're Get-
ting Experience

BALL SWEEPSTAKES MEET WITH FAVOR

Browning's Men Preparing to
Meet Annandale on
February 6

Although he has no hopes of his
team's winning the season anything
but tail-enders, Captain E. B. Brow-
ning of the Orange County Country
Club team, is extremely confident that
this season's training will be of tre-
mendous benefit to his men for next
year.

The local club ranks eighth in both
handicap and scratch competition.
Browning's men have played, and lost,
three games from scratch and have
played three and won one in the handi-
caps, placing them on a par with the
Midwick, San Gabriel and Victoria
clubs.

In the scratch competitions Vir-
ginia, San Gabriel and Victoria have
each played three and won one, giving them
a percentage of .333.

Good Practice
It will be remembered that at the
outset Captain Browning had no idea
of setting the world afe. He realized,
however, the great value of having
his players meet strange clubs on
strange courses. He understands per-
fectly that no matter how good a play-
er a man may be he is extremely like-
ly to go to pieces when first meeting
strangers on untried courses. That is,
provided he has had no previous ex-
perience in competing with players
unknown to him.

"We had to start some time," is the
way Browning puts it.

The astute captain of the local club
expects to save at least a year's time
by getting his players used to ming-
ling with unknown players.

"If we had not joined the Golf As-
sociation this year but had waited
until next season, thinking to
make a better showing by reason
of our players having had more prac-
tice," Browning continued, "we would
still have had the whole amount of
'steak' left to overcome. As it is,
we are getting into the game—the
Orange county men are gaining in con-
fidence."

"There are three or four of the play-
ers on my team who have made re-
markable strides in this matter of over-
coming what I might call self-con-
sciousness."

"This is proven by the fact that sev-
eral of them, before one of the recent
match games, played much better in
competition than they did during the
practice held in the morning."

Ball Sweepstakes
Ball sweepstakes, recently inau-
gurated at the Orange County Country
Club, are meeting with much enthu-
siasm among the players. It is likely
that these will be a weekly feature.
The next will probably be played Sat-
urday, though this has not yet been
definitely decided.

With the completion of the remain-
ing nine holes of the course a number
of different kinds of tournaments are
beginning to loom large on the local
golf horizon. The larger course will
give the players a wider scope for
their activities.

A number of bunkers will be built
at various points along the course. In
fact, work on several of these has al-
ready been started. One will be built
around the first green at a height of
about three feet. A pit will be dug
around this bunker on the outside. The
first green, which has been one of the
easiest to reach of any on the course,
will thus become one of the most dif-
ficult.

One week from Saturday the local
club meets the Annandale Country
Club on the Annandale course.

LAND COLE AGENCY IN SOUTHERN COUNTIES

Wisdom & Company, who have had
the Orange County agency for the
Cole automobiles for the past three
years, have recently secured the Cole
agency for San Diego and Imperial
counties.

Arrangements have been made for
opening a garage in San Diego next
Monday and within the next week
they expect to have a garage in El
Centro.

The added territory was given Wis-
dom & Company in recognition of the
splendid success they have had in
Orange county.

Recent sales reported by Wisdom &
Company are a six-cylinder Cole coupe
to Dr. J. M. Burlew and Cole Four to
George Schnappenberg of Orange.

Leases Garage
J. Riley Graham has leased the
Huntington Beach garage and in the
future will be in full charge of that
well-known establishment, says the
News. Riley is a popular young man
and has many warm friends in this
section of the county and his garage
is the headquarters for the Ford
agency in this district.

RIGHT OF WAY

If all automobilists would
observe the rule that the
machine coming from your
right hand, at street inter-
sections has the right of
way there would be fewer
accidents and less confu-
sion. Try it out and see
how nicely it works. Re-
member, give the man
coming toward you on
your right hand the right
of way.

SQUIBLET'S HOMER RUMME

It is to be hoped that a mule race
will be one of the gladsome and sport-
ive features at the equine speed fest
to be pulled off at the local track Sun-
day. Believe us, there is nothing like
one of these contests to cause gay
cacklings to emanate from the fans
who gather at horse racing matinees.

We were present recently when an
event between a field of the long-eared
hybrids was on the menu. There was
nothing but class to it from start to
finish.

By dint of much wielding of clubs
and bad slats the jockeys were able
to maneuver the flotilla to the post.
One of the craft, a diminutive spec-
imen consisting mostly of ears, ap-
peared eager for the fray; he required
much less corporeal urging than the
others.

Finally the fleet got under way. A
gigantic concourse of flat surfaces
greeted the eye. These, it developed,
were the ears of the animals—a
mighty array of aural appendages wav-
ing joyously in the breeze. An edify-
ing spectacle, in sooth.

The small one was left at the post,
or at least near it. He went a short
way and then developed symptoms of
discouragement, or politeness, or un-
willingness. At any rate he graciously
withdrew, in spite of earnest belior-
ings and remonstrances on the part of
his pilot.

They looked like a flock of dread-
naughts coming down the stretch.
They moved with majesty, with dig-
nity.

One of 'em had evidently entered the
race with earnestness pervading every
fiber of his mulish being. He led the
rest of the fleet by a hundred yards.
He had the race won.

That is, he would have had it won
had he not happened to recollect
something. He must have thought
that the field had not gotten away to
a fair start. Be that as it may, he
turned about and exhibited every
symptom of going back and starting
over again. Nothing that the man at
the helm could do was effective to
cause the mule to change his mind.
He was going back and that was all
there was to it.

Needless to say another mule, one
that up to this time hadn't been in the
running for a minute, cantered across
the line and incidentally made his
jockey the winner of the \$10 purse.

By all means let us have a mule
race Sunday.

POLICE CAR DRIVER PRAISES LEE TIRES

George Kellogg, local agent for
Auburn cars and Lee tires, is in re-
ceipt of a copy of a letter from the
Chandler & Lyon Company, Los An-
geles, distributors of Lee tires. The
letter to the Chandler & Lyon Com-
pany is by F. G. Schreiner, chief driver
for the Los Angeles police depart-
ment. Says the letter:

"Just a few words regarding your
Lee tires. I started to use the Lee
puncture-proof, non-skid tires on
March 1, 1914. On that date I equip-
ped two seven-passenger Premier cars
with these tires. To date have used
over 16,000 miles without trouble
of any kind. These tires look good
and I don't get 7000 miles more I
will be disappointed as they look fit
to do that distance yet. I am using
Lee tires on three seven-passenger
Oldsmobiles, three seven-passenger
Premiers and a six-cylinder Premier
ambulance with the best of service on
all of them.

"The police department has five new
cars ordered and they are to come
equipped with Lee puncture-proof, non-
skid tires.

"In the past seven years I have tried
nearly all makes of tires but never
found their equal.

"I can say but the best for them,
and will recommend them to any one
as the best. Owing to the rough
handling and the speed the machines
of the police department have to
stand, it is the severest test any tire
could be put to and they certainly
have made good.

"The police department has three
Auto-Car patrol wagons with solid
tires that I expect to replace with Lee
puncture-proof when the tires need
changing."

FAVOR SHOOTING QUAIL FOR ONE MONTH ONLY

Nimrods Name Committee to
Made a Report on Proposed
Fish and Game Laws

ADKINSON BELIEVES IN A LATE DOVE SEASON

Fishing Industry of This County
Threatened by Measure
Against Seining

Not over a month open season
for quail, October first choice,
November second choice.
Against measure that proposes
to stop seining. Such a law
would put \$12,000 industry out of
commission.
County Game Warden W. E.
Adkinson, Victor Walker and T.
E. Stephenson are a committee
to look over all fish and game
laws submitted to legislature, and
report to meeting of hunters and
anglers in February.

At a meeting of Orange county men
interested in hunting and fishing, a
resolution was passed asking State
Senator Anderson and Assemblyman
Burke to use their best efforts to pre-
vent the passage of any law that will
give over a month's shooting of quail
in this county.

The sentiment of the meeting was
also strongly expressed as opposed to
a measure that aims to prevent seining
along the shores of California. Such
a law would knock the spots out of
the fishing industry of this county.
It was asserted by Victor Walker that
the law would make it impossible for
commercial fishermen to get bait, and
would drive those who engage in fish-
ing to the use of the pernicious purse
net, also called the dromary net.

The meeting was held at Hill &
Walker's sporting goods store. Victor
Walker was elected chairman of the
gathering. Among those present were
County Game Warden W. E. Adkinson
and Forest Ranger J. B. Stephenson.

Dove Plentiful
It had been reported through Sacra-
mento dispatches that the Fish and
Game Commission had introduced a
large number of fish and game bills,
and that among them was a law re-
stricting the state into four dis-
tricts instead of six. This county
would be in No. 4. For that district
it is proposed that the dove open sea-
son be September and October, and
quail November and December.

"There is no question but that
quail are being annihilated in this
county," said Adkinson. "For our
county it would be best to have the
shooting seasons all open and close
at the same time, but that is a con-
dition that we cannot hope to get. The
Los Angeles sportsmen want as long
a hunting season as possible, and
probably that is the reason why they
want to string the dove and quail
hunting out over four months, giving
two months to each one.

"As a matter of fact," continued he,
"quail hunting should come earlier
than we have been having it, and dove
season should come later. December
would have been a splendid dove
month. September is too early, be-
cause the birds are still nesting dur-
ing that month."

Protect Mating
"The killing of the birds is not the
only thing to be looked at, so far as
quail are concerned. Quail must have
quiet, else they will not multiply.
They begin mating along in Febru-
ary, but they will not mate then un-
less they have had a season of at
least two months' quiet. I tell you
that shooting quail during December
would mean that there would be far
less pairing off of quail in the spring.

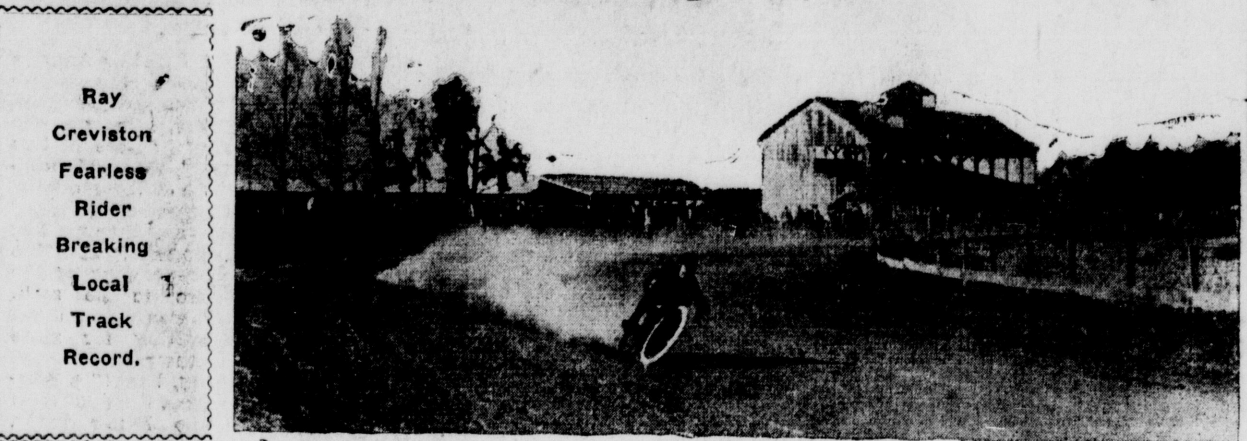

"So far as the destruction of quail
is concerned, one need only ask, 'How
many hunters got the limit during the
last season?' Quail are getting so
scarce that it is almost impossible for
a man to get a limit bag."

Forest Ranger Stephenson said that
Adkinson was dead right on his ob-
servations concerning quail. It was
Stephenson's opinion that quail should
not be hunted later than Thanksgiving,
for any disturbance of the flocks
after that time would be disastrous to
the spring mating. After the open
season raids there must be a season
of absolute quiet to give the birds a
chance to forget their fright.

Adkinson said that it is a mistaken
idea that dove should be hunted early
in the fall. To his mind, November
and December are the best dove
months of the year, for then the birds
are uniformly large and fat.

The Purse Net
Walker gave a graphic description
of the havoc worked by the purse net.
He said it is used by San Pedro fish-
ermen all along the coast of this
county, and they absolutely clean out
schools of fish. The proposal to do
away with seining was reported to
him as having come from the Rod

Two Harley-Davidsons Entered in the Race "Cannon Ball" Baker Signs for February 7

Two Harley-Davidson racing motor-
cycles will be entered in the 100-mile
race at the Santa Ana race track Feb-
ruary 7, according to information given
today by Harry Rossier, who is as-
sisting Walter Rogers in getting the
big speedfest under way.
Rossier was in Los Angeles yester-
day and learned also that "Cannon
Ball" Baker will be one of the men to
compete in the big grind. Baker rides
an Indian and is known as one of the
most fearless of all the professional
racing men. His specialty is long
distance events.
The entry list is growing daily.
Rossier announces. Already fifteen
kings of the motorcycle speed game
have signed for the local meet and
is now assured that by the time
February 7 rolls around at least a
half-dozen more will face the starter.

Ray Creviston continues to carry
everything before him. The daring
little speed demon "cleaned up" at
Phoenix recently, making 68 1/4 miles
in one hour's time. He stopped once
during the race to tighten his handle
bars. Fans are wagering that if any-
one breaks Creviston's mark for a
mile on the local track February 7 it
will be Creviston himself. It seems
that Creviston and his Indian form an
almost invincible combination.

MIDIRON SHOTS NEED A VERY FIRM GRIP DECLARES EXPERT

BY BOB SIMPSON
In playing the midiron it is necessary to hold much
more firmly with both hands than when playing a wooden
club. In fact the club cannot be held too firmly.

When addressing the ball keep
the left arm straight, also in the
swinging of the club back. Keep
the arms away from the body
without twisting the upper portion
of the body more than a very lit-
tle. Use a shorter swing than
with either of the wooden clubs or
the cleek. Hold the arms straight
and fairly stiff and endeavor to
throw the club directly at the
point you want to reach.

Too much care cannot be taken
in bringing the club back. If you
get the club back properly you
are almost certain to bring it for-
ward well.
In swinging back it is most
essential not to bend the left
wrist. Some players twist the
wrist either forward or back-
ward and ruin their shots by so
doing. Swing the club straight
back of the ball, not up too quick-
ly, with the head of the club as
in all shots, ahead of the hands.
Many players swing the club too
far back, with the result that the
shot is played loosely.

HUDSON SALESMAN IS TREATED TO REAL SURPRISE ON TRIP

'Six' Does Even Better on a
Gallon of Gas Than He
Thought Possible

"You very seldom find an automo-
bile salesman who isn't willing at all
times to boost his car to the limit,"
says Robt. E. Reid, local agent for
Dodge Brothers and Hudson cars.

"But you do find a salesman once in
a while who doesn't know exactly
what his car really can do.

"Evans J. Maxwell, salesman for
the Hudson, made a demonstration
the other day that proved almost as
much a surprise to him as it did to
the prospective customer.

"In order to find out exactly what
a car would do in the matter of
mileage on gasoline, H. C. Hoefler,
corner of Grand and Santa Clara ave-
nues, required all salesmen who gave
him demonstrations to first empty
their gas tanks. Then Hoefler would
himself put in exactly one gallon of
gas and the demonstration would be-
gin. The miles per gallon of gas
could thus be determined absolutely.

"Maxwell drove a Hudson Six out
to Hoefler's residence the other day.
Hoefler questioned Maxwell in regard
to how many miles per gallon of gas
the Hudson could make. Maxwell told
him about fifteen or sixteen.

"The gas tank was emptied and ex-
actly one gallon was poured back in
the tank.

"With four passengers in the car be-
sides Hoefler and Maxwell, the latter
driving, the Hudson Six was driven to
Main street from the corner of Santa
Clara and Grand; thence to the north
end of the city limits of Anaheim;
thence back to Orange to Prospect
avenue; thence south on Prospect to
Santa Clara, and then west to within
three-quarters of a mile of the Hoefler
residence, before the gasoline ran out.

"The speedometer showed exactly
nineteen and nine-tenths miles. Need-
less to say, Maxwell made the sale.
Not only that but he also learned
something about mileage performance
that he had not before known about
the Hudson Six."

BIG HIT IS MADE BY OVERLANDS AT SHOW

"After returning to Los Angeles
from a tour of the Southern California
Overland agencies to judge how many
cars will be necessary for his terri-
tory L. V. Starr predicted business
prosperity for 1915 in every part of
Southern California," said F. L. Aus-
tin, of the Main Auto Company, local
agents for Overland cars.

"Although many of the smaller towns
along the line of motor travel to the
expositions are depending on the big
shows for increased business claims
for prosperity are based on a sounder
basis than this which could at best
last only for a season.

"There is a greater demand this
season for Overland cars than ever
before," continued Austin. "Starr is
doing his best to get additional cars
for this section of the state as the al-
lotment for Southern California will
not begin to fill the needs of the
agents.

"The new six-cylinder Overland as
well as the four is proving popular.
More prestige has been gained for the
six this year than ever before.

"The expressions we heard at the
Auto Show here last week were ex-
tremely gratifying."

DUCK SEASON IS DRAWING TO A CLOSE

Only Three More Days Remain
Hunters Say Shooting
Was Fair

HARMONY BETWEEN THE CLUBS, ROAD HUNTERS

More Birds During Forepart of
Season Than Later,
It Is Said

Only three more days remain in
which ducks may be killed.
The season, which opened October
15, closes January 31.

Opinions differ among Orange county
hunters as to the quality of the
season. Some say that the season
has been better than for several
years while others maintain that only
a fair amount of birds has been bag-
ged.

Judging from reports that have been
received from time to time it seems
certain that the season has been such
as to give the nimrods no cause for
complaint. Many hunters have se-
cured limits at the various gun clubs
in the county while it is certain that the
road shooters have been more success-
ful this season than for several years
past.

Members of the San Joaquin Gun
Club have had very good luck. The
members have all secured limits at
various times.

There has been more harmony be-
tween the gun clubs and the road
hunters than during any previous
year.

Shooting in Orange county, as com-
pared with that had in Los Angeles
county, seems to have been on a par.
When the ducks were scarce in this
county they seem to have been plenti-
ful in Los Angeles, and vice versa.

It seems to be the consensus of
opinion that hunting during the early
part of the season was better than
that had later.

Most of the ponds have had ample
water.

The birds have remained on the
ocean a great part of the time during
the latter part of the season. They
returned to the gun clubs after sun-
down and as they could find but little
food then this has had a tendency to
make them poor in flesh.

Ducks were able to remain on the
ocean a great part of the time this
season as there were practically no
storms to drive them inland.

SILVERADO CANYON HOLDS FASCINATION FOR AUTOMOBILIST

Beautiful Route is Mapped for
Benefit of Register
Readers

Silverado Canyon! The very name
has a fascination borne out by the can-
yon itself.

With the completion of the state
boulevard to Orange, the trip to Sil-
verado canyon is an unusually beau-
tiful one-day's run. There is an excel-
lent macadam and concrete boulevard
all the way from Los Angeles to Or-
ange and a good dirt road from that
point to the head of the canyon.

The Hudson Six sent out by the H.
L. Arnold Touring Information Bureau
last week has charted and mapped
this road especially for readers of the
Register. The distance from Seventh
and Main streets, Los Angeles, over
the boulevard to Orange is 34 miles
and the road up the canyon is 15 miles.

The very wildness of that portion
of the trip—climbing through the en-
trance to the canyon, passing Orange
County Park on the way, fording the
stream six or eight times, then thread-
ing the narrow canyon road where
the mountain slopes increase in steep-
ness and the canyon narrows down to
a deep gorge between tremendous
rock walls, over which the stream
tumbles in cascades, makes the trip
something out of the ordinary, and for
that reason, one of great satisfaction
to the motorist who wants to spend
the day entirely away from the tram-
mels of city life.

Robert E. Reid, dealer in Hudson
and Dodge Brothers cars in Santa
Ana, has a supply of the maps men-
tioned above, which he will distribute
free to motorists calling at his estab-
lishments. In this map the route to
Silverado canyon is clearly shown,
together with an extension through
the balance of Santiago canyon to El
Toro, and connecting with the stream
new highway from Anaheim, through
Artesia, Norwalk and Downey. This
provides a round trip which Mr. Reid
highly recommends to the motorists
of Santa Ana and vicinity.

With the exception of a short detour
at the new bridge at Sycamore Wash.
The best way to Laguna is to go via
Irvine boulevard to the Irvine ranch-
house, thence south to Colver's corner,
thence east to the road north of Ir-
vine.

Motorists desiring to go to San Di-
ego are advised to travel via Laguna
Beach and then along the coast to
San Juan Capistrano. By taking this
route two detours, not in the best of
condition on account of the rains, are
avoided between Irvine and Galavan.
Detours between Capistrano and Los
Flores are reported good. Rain, of
course, tends to make them slippery.

The Cypress road has been opened
through to the Artesia boulevard.

The road south of Buena Park and
south to the Stanton road has been
opened up in the last week.

To reach Talbert motorists are
advised to go via the paved road through
Bolsa.

For the benefit of those who are
going to motor to Yorba Linda tomor-
row night to attend the Associated
Chambers of Commerce meeting the
Register gives the advice to go via
Anaheim, thence east on Center street
to Placentia avenue, thence on Placen-
tia avenue to Yorba Linda boulevard,
thence easterly two miles to Yorba
Linda.

With the exception of Pomona, it
looks as though the Citrus Belt League
favors a return to the American game
of football, says the Redlands Facts.
The fact that Pomona has for several
successive years captured the rugby
championship is generally given as
the reason for her loyalty to the im-
ported style of play. "It looks very
much as though Redlands, Riverside
and San Bernardino would be playing
the American game next year," said
H. G. Clements, principal of the high
school, who attended the Citrus Belt
League meeting Saturday. "San Ber-
nardino announced she would play the
American game and Riverside practi-
cally decided to make the change from
rugby. If these two schools change,
then Redlands will. Personally I have
been in favor of the rugby game for
the high school," said Mr. Clement.
"For the reason that I believe it is a
better game for boys of that age.
Frankly, I will say that my preference
is for the English game. But if River-
side and San Bernardino change over,
there is nothing for Redlands but to
do the same. No doubt the 'flop' of the
Los Angeles high schools had much to
do with this."

With the exception of a short detour
at the new bridge at Sycamore Wash.
The best way to Laguna is to go via
Irvine boulevard to the Irvine ranch-
house, thence south to Colver's corner,
thence east to the road north of Ir-
vine.

Motorists desiring to go to San Di-
ego are advised to travel via Laguna
Beach and then along the coast to
San Juan Capistrano. By taking this
route two detours, not in the best of
condition on account of the rains, are
avoided between Irvine and Galavan.
Detours between Capistrano and Los
Flores are reported good. Rain, of
course, tends to make them slippery.

The Cypress road has been opened
through to the Artesia boulevard.

The road south of Buena Park and
south to the Stanton road has been
opened up in the last week.

To reach Talbert motorists are
advised to go via the paved road through
Bolsa.

For the benefit of those who are
going to motor to Yorba Linda tomor-
row night to attend the Associated
Chambers of Commerce meeting the
Register gives the advice to go via
Anaheim, thence east on Center street
to Placentia avenue, thence on Placen-
tia avenue to Yorba Linda boulevard,
thence easterly two miles to Yorba
Linda.

REX BEACH

Famous Author, says:

"I have smoked Tuxedo in sub-Arctic Alaska, at Panama and everywhere—would not smoke another kind"—

Rex Beach.

Tuxedo—a Tobacco For Wise Smokers

Rex Beach has lived his books. In personality he is much like his own heroes—a red-blooded, clean-cut, strong young fellow, fond of the healthy ways of outdoor life. His tobacco is Tuxedo—a mild yet rich tobacco that is healthful, wholesome, refreshing and beneficial in every way.

You get some Tuxedo today and you'll find your experience with it tallies with Rex Beach's.

Tuxedo

The Perfect Tobacco for Pipe and Cigarette

Never was a smoke as good as Tuxedo—the pipe and cigarette tobacco without a sting, and with the most pleasant aroma. It's friendly to every man's taste because it's produced by the famous original "Tuxedo Process" that first put the sensitive tongue folks on speaking terms with a pipe.

No imitation can be as good as Tuxedo—because no imitator can use the famous, exclusive, original Tuxedo "process."

NIMRODS UNLOOSE FINE DUCK TALES AS SEASON WANES

ONE OF THE MOST noticeable (and exasperating, to the newspaper man) traits of duck hunters is their modesty, their retiring disposition, their unwillingness to court publicity. They manage to keep some of their best stories safe from the clutches of the nosy reporters. Especially when the joke is on them. However, now that the duck season is drawing to a close a number of first-class tales are beginning to make the rounds.

HOW A PARTY of Los Angeles hunters was given the horse-laugh several weeks ago is related by "Dusty" Miller, one of the most expert road hunters in this vicinity. "Dusty" was out hunting one day with several others. The party had bagged a number of birds and for safekeeping had stuck them in the mud. Only the heads and upper portions of the dead birds were to be seen. "Dusty's" party was lying down in some tules, waiting for more ducks to make their appearance, when "Bang, bang, bang!" a number of raucous shots rang out from guns not of the Miller party. Raising themselves up cautiously, Miller and his companions saw that a party of Angelenos had been bombarding the extinct ducks planted in the mud by Miller. Needless to say, it was at this juncture that the Angel City nimrods were handled the equine cacklings by the Santa Anans.

E. S. MORROW is one Santa Ana hunter who does not wax enthusiastic in speaking of the present and rapidly closing duck season. Morrow ventured forth no less than four times, and his efforts were rewarded by one lone bird.

CLARE JOHNSON has lately turned loose a little tale of how he got a beautiful ducking about two months ago while hunting ducks south-southwest of this city. He was sloshing about in about a foot or so of water, keeping his eagle eye open for the festive birds. All at once, down he went into a hole about three feet deep. The water was up to his chin, yet he retained his presence of mind. A fine flock of ducks flew past just at that moment. Without an instant's hesitation Johnson blazed away. He failed to bring down any of the birds, sad to relate. The worst part of the occurrence was that when he tried to extract himself from the mud and ooze he found that he was stuck. His boots were filled with aqua pura. His hunting coat was crammed with moisture and altogether he was so encumbered that he found it utterly impossible to venture forth from his predicament. However, "Doc" Gerhardt and Bill Majors, who were with Johnson, managed to pull Johnson back to terra firma. The mighty nimrod did not mind so much the ducking as he did his failure to bring down any birds while he was immersed.

CHARLIE CARLSON tells one on himself. He was after birds one day in a particularly good location. He settled himself comfortably in the blind and had not waited long before a fine flock of ducks flew by overhead. Carlson raised his gun and pulled both triggers. Not a duck fell. One of the main reasons was because he had failed to put any ammunition in his gun.

IN ORDER to sort of offset his ill luck when he was the guest of the gun club, as told in the story above, George Young, accompanied by Clarence Skiles and Paul Knauff, went plover and snipe shooting yesterday afternoon. Young took enough ammunition to annihilate all the plover in Southern California.

ANOTHER fine tale comes to light. It concerns George ("Husky") Young. He was the guest of a certain gun club west of town. Those who had given him the invitation had been particularly urgent in their pleas that Young refrain from encumbering himself with guns, ammunition and other what-nots of the sport.

"All we want is your company," urged the clubmen, smiling blandly.

Thus prodded, Young was exceedingly flattered. He went to the club. To further show their extreme hospitality, the clubmen had the gamekeeper put in the greater part of the preceding night loading up about 125 shells for Young's especial benefit. While the club members and Young played checkers and dominoes, the gamekeeper was hard at work. And when Young casually remarked about all this unwelcome deference that was being shown him the clubsters merely pooch-pooed. "A mere trifle, Young," they said. "We're glad to be able to do something for you to show our appreciation of your company."

The clubmen planted Young in one of the finest blinds on the club. Further proof of the clubmen's amiability. Flock after flock flew overhead. Charge after charge was emitted from the expensive gun in the hands of Young. The gun, by the way, was also furnished by the club.

Large globules of sweat were beginning to bead the Young brow. Was he losing his shooting eye? Were the ducks wearing coats of mail? What was wrong?

Young continued his bombardment. He'd hold his gun dead "on" to a bird and pull the trigger. The duck would merely flutter its wings and calmly proceed on its way.

All but about thirty of the 125 shells had been used by Young. Young was beginning to have suspicious that all was not well. He spied a cartridge which had been discarded some time previously by a pump-gun shooter. He put the tarnished cartridge in his gun and took deliberate aim at a duck that was regarding him insultingly from a distance of about twelve yards. He fired. The duck keeled over, dead.

'WHY NOT NOW?' IS QUESTION ASKED BY BOULEVARD FRIENDS

"To be or not to be?" Is Orange county to have a coast boulevard?

Of all the various clamors that have arisen in the county for a slice of the \$240,000 good roads surplus, that emanating from Garden Grove Monday night and calling for the construction of a road from Huntington Beach to Newport Beach seems the most authentic.

Even those who are most desirous of getting a whack at the surplus for paving in other parts of the county are forced to admit the desirability of a road from Huntington Beach to Newport as part of a paved highway which will ultimately continue to Corona del Mar and thence to Laguna.

Very few deny that the coast boulevard is bound to come sooner or later. And the Garden Grove people are willing to see the work done between Huntington and Newport.

There can be no doubt that a modern paved highway along Orange county's beautiful coast would be one of the most delightful drives to be found anywhere in California, if not in the United States.

The county now has a splendid system of highways. Four of these terminate at the beaches and there is now no way for the motorist to get from one of these points along the coast to another. Roads radiate to the north, northeast and northwest. Roads radiate to Laguna Beach, to Newport, to Huntington Beach and Bay City. It will be only a question of time before roads will be built connecting all four of these latter points along the coast.

The question that the coast boulevard boosters are asking is, "Why not now?"

REO TRUCKS FOR BIG FAIR

A San Francisco sight-seeing company will shortly put into operation a fleet of Reo trucks, on which will be mounted large sight-seeing bodies. These will be used in the transportation of visitors to and from the exposition and to other points of interest in the city.

Snipe in This State Steadily Decreasing

By HAROLD C. BRYANT

Game Expert, California Fish and Game Commission.

The game resources of California were originally unequalled by those of any other state. Even though greatly reduced at the present time, they bring in an annual income of at least \$15,000,000 each year. The wild game of the state is a resource to be compared with our forests, our water supply and like assets, and needs to be just as carefully conserved. Like many other public resources, however, this one has been wasted and the time is near at hand when the strictest of conservation measures will fail to save what is left unless the public becomes more intensely interested in its protection.

The Register has offered to assist in bringing to the citizens of the state reliable information regarding game. Dr. H. C. Bryant, in charge of the Bureau of Education, Publicity and Research of the California Fish and Game Commission, is the author of a series of articles dealing with the game fish, birds and mammals of California. Other articles by Dr. Bryant will appear in the near future.

The Wilson snipe, or English snipe, locally in considerable numbers on and Jack snipe of the hunter, belongs to the category of shore birds, birds which have a habit of feeding along the shores of ponds, lakes and streams. Its nearest relative is the woodcock of the East. To the hunter the snipe furnishes the most exciting of all sport, for it has a peculiar habit of lying close and then flushing with an erratic, zigzag flight, which makes it an exceedingly difficult mark.

Here in California the snipe is largely a migrant, for as a general rule it breeds farther to the North. There are few instances of nests having been found in our high mountains. Some of these records seem to point to the fact that this bird nests very late, but other records seem to point to the fact that the snipe is an early nester. Certain it is, that many of the snipe which remain so late in the summer must nest somewhere within the state.

From other birds found in our marshes the Wilson snipe is easily distinguished by its long bill (about 2 1/2 inches in length), its striped brown and tan plumage and its zigzag flight.

During the breeding season the snipe is noted for a peculiar flight song. A bird darts up from the ground, circles higher and higher, till it is almost out of sight, and then there follows a peculiar resonant song accompanied by a humming sound made by a succession of rapid wing beats, as the bird at intervals swoops earthward. This aerial maneuver often continues periodically far into the night. Although the bird cannot always be seen, the peculiar sound can be heard a long distance. The snipe seems to prefer cloudy days and the season before sunup and after sundown for its aerial gyrations. The nest of Jack snipe is usually placed on a small tuft of grass in a meadow and is composed of fine grasses. Only the closest search will disclose it with its complement of four olive gray eggs spotted with brown.

Even in localities where it is very abundant the snipe is very sporadic in its occurrence, appearing in a given

one day, and being totally absent on the next, and perhaps re-appearing on the succeeding day. Mud flats on the edge of slow-moving streams, level, open marshes, and flat upland meadows are its haunts. Occasionally snipe may be found feeding in dry grass-covered fields.

In walking, the snipe carries its body erect, its bill pointing downward. When startled, it jumps into the air with a sharp call resembling the syllable "scalpe," makes off with a zigzag course not far above the ground, and finally pitches head-long into the swamp again, oftentimes in exactly the same place from which it was frightened.

The food of the Wilson snipe is made up of earth worms, insects and insect larvae. Most of the food is procured by probing in soft mud, the bill of the snipe being particularly well adapted to this practice. The end of the bill is provided with sensitive nerves which enable the bird to feel the worms beneath the mud. Muscles allow the end of the bill to open enough to obtain the worm, while the rest of the bill is closed to exclude the mud. This method of procuring food necessitates the drilling of great numbers of holes. The ground is oftentimes literally honey-combed with holes. Hunters often say that it is useless to look for snipe in a locality where such probes are not found.

The snipe of all the shore-birds is considered the finest for the table. Its flesh is delicate and of prime flavor. The only reason it is not more widely used as a table bird is because there are few hunters who are good enough "wing-shots" to secure a bag.

Reliable reports show that there has been a steady decrease in the numbers of snipe in California. No doubt the spring shooting until recently accorded this bird has been largely instrumental in causing the decrease. It is hoped that the greatly shortened open season established by the Federal Migratory Bird law will protect the snipe sufficiently to allow of its appearance in goodly numbers for years to come.

ASKS FOR EIGHT HOUR LAW FOR THE DUCKS

John L. Wyatt Says Early
Shooting Such That Birds
Have No Chance

HUNTINGTON BEACH, Jan. 28.—I live not a great distance from the Bolsa Chica Gun Club grounds and in hearing-distance of the guns. On the morning of January 20, 1915, at 6:30, the guns were going so rapidly at times it was difficult to count them. This was a clear morning, but just coming day. The sun no doubt was up in New York city and was perhaps shining some distance this side of there, but it does not appear here until about 7 o'clock. At this time of day it would be a difficult thing to distinguish a canvasback from a pelican or a gull, but I suppose a pelican or a gull has no right to be trespassing on these grounds and if they do get over there and get shot it is their own lookout. I have always been told that being a "pot hunter" was no sport and a man who would shoot into a bunch of birds huddled together either on account of still being on the roost or nearly frozen was not considered a real hunter. Many mornings we have a high fog, and some times a low fog. It remains dark long after the usual time for daylight, but under the present law when it is time for the sun to be up, I don't know when they can commence the slaughter. There is a great deal being said now about the eight-hour law and it seems to me that here is another place to recognize it. Pass a law that time for shooting ducks shall begin at 8 a. m. and close at 4 p. m. and I believe the birds will have a little better show for their lives.

JOHN L. WYATT.

Studebaker

This year you are going to be able to buy automobiles for almost any price that you want to pay. We want, however, to remind you that in motor cars you cannot be governed alone by appearance or specifications. There are many cars that look just as good on paper as some at higher prices, and many are inclined to say, "What is the use of paying \$1075 for a Studebaker, for instance, when I can buy a ——— for \$100 or \$200 less?"

Studebaker cars are built of that material that experience has demonstrated to be the very best for each part. They are built and sold by a company of established reputation. With these cars you take no chances. They may cost you a little more at the outset than some that seem to be just as good. But if you distribute your cost over the length of the life of your car you will find that Studebaker cars are wise economy. Buy a Studebaker car and you are assured that you have made the wisest investment.

County's Seventh Ball Club

Fullerton, Placentia Are In

A HIGHER DEGREE of interest in baseball is certain to be seen this year in Orange county than during any previous season.

A dispatch from Fullerton says, "Fullerton will be represented by an amateur baseball team in the near future and the best teams in the south will be played. The Belts Cycle Company is financing the nine."

Word is also received that Placentia will have a team in the field.

BASEBALL GOSSIP OF CLUBS ACTIVE IN ORANGE COUNTY

MANAGER DECK has received word that the Exposition club, which was to have played here last Sunday but did not on account of rain, will meet the Moose team this coming Sunday.

Pitcher Sals hurt the index finger of his right hand the other day and will be unable to do the hurling Sunday. "Slim" Abbott will grace the mound instead.

Carlton Stevens, who, by the way, is leading the Moose in batting at present, having superseded Leake, will catch. Leake will be on first. Brownie West on second, Eddie McGaffey at short, Sals probably at third, Freeman in center, and West and Carillo also in the outfield.

The Moose management and players are exceedingly optimistic as to prospects for the season. As spring approaches interest in the game among local fans is on the increase and it is certain that the Moose will play to some good crowds within the next few weeks.

PLOWING AND HARROWING at Garden Grove are claiming the attention of the majority of the Grovers' athletes just at present. The result is that the team will take a lay-off for about a month.

Anson Mott and Clare Head are over their heads in agricultural pursuits just now and have no time for baseball. Several others of the players are taking much advantage of the splendid planting season and find it much more interesting to plant crops than to defeat opposing teams.

"We're going to quit for about a month," said Mott today. "But we'll be very much back in the game after that time. Watch out for us when we start playing again."

PETE DUHART, the nimble shortstop of the Moose, manages to get along with only one crutch now, having discarded the other several days ago. He tore two of the ligaments of his left foot three weeks ago in sliding. His foot swelled up and gave him considerable pain. He will be entirely recovered from his injury in about a week or ten days, he says.

THE SPEEDY REDONDO ball club has fired a challenge to meet any semi-pro club in this vicinity for a \$100 side bet, Santa Ana, San Pedro, Santa Monica and the Harris & Franks are preferred. Bell and O'Conner are doing the hurling for the beach team, and B. Simms is on the receiving end.

A SPECIAL TRAIN will be run to Redlands on Sunday, February 7, for the opening of the new merchants' baseball park there, says the Anaheim Herald. A game between the Anaheim and Redlands teams will be played in Redlands that afternoon.

The management of the Anaheim baseball club has made arrangements for the special train to leave Sunday morning for Redlands. The file and drum corps and the Anaheim band will accompany the special on the trip. It will be a gala day in Redlands as this is the opening game in the new park and special arrangements have been made for the day.

VEGELY GARAGE WILL GET FIRST CARLOAD REOS ON FEBRUARY 1

The Vegely Garage, agent for the 1915 Reo, has received word that its first carload of Reos passed through Chicago early this week and will arrive in Santa Ana about February 1.

THICK GLOSSY HAIR FREE FROM DANDRUFF

Girls! Beautify Your Hair!
Make it Soft, Fluffy and
Luxuriant

Try as you will, after an application of Danderrine, you cannot find a single trace of dandruff or falling hair and your scalp will not itch, but what will please you most will be after a few weeks' use, when you see new hair, fine and downy at first—yes—but really new hair—growing all over the scalp.

A little Danderrine immediately doubles the beauty of your hair. No difference how dull, faded, brittle and scraggy, just moisten a cloth with Danderrine and carefully draw it through your hair, taking one small strand at a time. The effect is immediate and amazing—your hair will be light, fluffy and wavy, and have an appearance of abundance; an incomparable lustre, softness and luxuriance, the beauty and shimmer of true hair health.

Get a 25 cent bottle of Knowlton's Danderrine from any drug store or toilet counter, and prove that your hair is as pretty and soft as any—that it has been neglected or injured by careless treatment—there's all—Advertisement.

When the Fullerton and Placentia teams are started there will be no less than seven full-fledged ball teams in active operation in this county. The other teams are the Santa Ana Moose, Santa Ana Tigers, and teams at Garden Grove, Anaheim and Brea.

The oldest is the Garden Grove team, under the leadership of Anson Mott. The club has made a showing that compares favorably with that made by any other semi-professional team in Southern California.

The next oldest club is the Santa Ana Moose, managed by S. E. Deck and under the leadership of Brownie West. The Moose club has been playing steadily ever since about the middle of April of last year. The club has played some of the strongest teams in the South and has made a splendid showing.

The Santa Ana Tigers, managed by C. E. Holmes, took the field about six weeks ago and have given opposing teams all they could handle. The Tigers seem to be confining themselves entirely to inter-county games. They have played several games with Garden Grove and Anaheim and one with Brea.

The Mother Colony club was organized several weeks ago, as was also the Brea club. Announcement is made that Anaheim will have a new ball park in the very near future.

The suggestion has been made several times by local fans that the teams now playing in Orange county get together and play a series of games to decide their relative merits.

There can be no doubt that such a move would prove highly successful. Each club is supported by many local fans and it is practically certain that such a series would arouse a great deal of enthusiasm in the various cities of the county.

Word comes that Placentia has taken the field. The Placentia Courier has the following about the first game played:

"The first game played by the Placentia merchants' team was with Richfield last Sunday. The score resulted 3 to 5 in favor of Richfield.

"The Placentia team was handicapped by lack of a good pitcher, but this has been remedied and with proper support by Placentia merchants, we will have a team that will give Placentia proper representation. Many of the merchants have already volunteered their support.

"Fred Cline has been chosen captain and John Eberanc manager, which argues a bright future for the Placentia merchants."

ORANGE ATHLETES WILL PLAY ANGELS ON WHITTIER COURT

Orange News: Orange Athletic Club basketball team will open its fight for the championship of Southern California, in the A. A. U. tournament, by playing the Los Angeles Athletic Club team at Whittier on Thursday night of this week.

Manager Newton of Orange was informed this morning by the A. A. U. officials that the game would be played on the court of the Whittier high school tomorrow night.

The news was received with enthusiasm by the backers of the local team, who will have an opportunity to accompany the team to Whittier and witness the game. A large crowd is expected to go.

The Orange lightweights, the 120-pound team, will also play at Whittier, meeting the Glendale team; and the Los Angeles Athletic Club 140-pound team will meet the Whittier Crescents 140-pound team.

The first game between the 120-pounders will start at 7:30 p. m. The 140-pounders will play next, and the Orange and Los Angeles heavies will play the third game of the evening.

It is considered to the advantage of the Orange team to play on the Whittier floor, as it is the same size as the local floor, while the Los Angeles Y. M. C. A. floor, where the games were first announced, is much larger.

The Orange lightweights have a fast combination in Batterman and Wallace, Dyer, Ensign, Arguello and Potter, and although the Glendale bantams are rated as the fastest in the South. Backers of the Orange team expect victory.

The big team, consisting of Pine, Thompson, Park, Samis, Helwig, Potter, Pister and Slater, is believed to have a good chance of beating the Los Angeles Athletic Club, although the latter is ranked as one of the leading teams. The locals finished their practice work last night, showing great form. All the men are in tip-top condition and ready to put up a hard fight in the tournament.

People who expect to go to Whittier for the games tomorrow evening, should arrange to go early so as to be sure of securing seats. The drive, which is over paving the entire distance, can be made easily in a little less than an hour.

Local fans are looking forward to a fast game here Friday night, when Los Angeles Y. M. C. A. and the University of Southern California hook up on the Orange floor in one of the tournament games. The rooters should be out in force to this game, as a good attendance Friday night may result in bringing the final game to Orange.

Dr. J. W. Chaffin, 417 Hollingsworth Bldg., Los Angeles, in Santa Ana Office Wednesday and Saturday afternoons, 1 until 7:30 p. m. Eye, ear, nose, throat and skin diseases.

PAIGE

"The Standard of Value and Quality"

Again The Paige Leads

This Time It's—
The World-Famous Glenwood "Four-36" At \$1075

This is the same car—feature for feature—that amazed the entire motor car industry when it was offered at \$1275. This is the same car from headlight to taillight—to the smallest cotter pin that you have heard repeatedly called—"The greatest automobile value in the world"—and when you heard that—the car listed at \$200 more than the present price.

Now you begin to see why this is a startling announcement—what it means to the man who has patiently awaited the coming of a real quality car at a popular price.

Three Paige conditions have made this amazing price possible.

The strong financial condition and business foresight of the Paige-Detroit Motor Car Company, have enabled them to buy materials at a greater advantage than ever before.

The Glenwood has given universal and absolute satisfaction. Because of that no mechanical changes have been necessary. Because of that there have been no high experimental and engineering costs.

These facts together with the great savings effected by Paige manufacturing methods are responsible for the new record-breaking price of the Glenwood "Four-36."

You know the Glenwood's reputation—you know it as "The World-Famous Glenwood"—the greatest automobile value in the market. You know also that that reputation was gained with the price at \$1275. You can realize then what that same value is at a price of \$1075.

Go into the very vitals of the Glenwood. The Paige motor—The multiple disc cork-inset clutch—silent chain drive to auxiliary shafts—Gray & Davis large unit electric system—Bosch magnet—combination force feed and constant level splash lubrication—the Stewart carburetor. Go thoroughly into every part of the Glenwood.

See the car—more its lines—its 116 inch wheel base—its roominess—its luxury. Drive it and ride in it. Convince yourself of its remarkable value. We are confident you will agree that the Paige Glenwood not only has the greatest combination of high grade features found in any popular priced motor car—but that the car stands today down to its smallest cotter pin, the greatest four-cylinder value in America.

See it—Ride in it—Investigate it. That's all we ask.

Paige-Detroit Motor Car Company, Detroit, Michigan
CADILLAC GARAGE
H. H. KELLEY Paige and Cadillac
(Also make it a point to see the record-breaking "Six-46" at \$1395)

\$1075

Four "36"
PAIGE MODEL GLENWOOD

CARL STEVENS SOME SLUGGER; HE LEADS WITH A 428 AVERAGE

Carlton Stevens, the husky catcher of the Moose club, is now leading the team in batting. His average is 428. He has been 49 times at bat in 13 games and in that time annexed 6 runs and 21 hits.

The next best slugger on the team is Eddie McGaffey. He has 15 games to his credit, 55 times at bat, 6 runs and 21 hits, an average of .382.

Brown West has an average of .333. He has played 26 games, been up 87 times, made 20 runs and 29 hits.

First Baseman Leake follows "Brownie" with an average of .325. Freeman, who, having been at bat 109 times, leads all the others in the number of games played, has an average of .284.

CORRECT INFORMATION ABOUT COAST ROUTE IS DIFFICULT TO OBTAIN

It is difficult to give correct route information between here and San Diego from the fact that each day some part of the road is closed or opened on account of the state opening a new surface on the cement base between Oceanside and San Diego, thereby closing the good roads also a considerable construction on the coast road between Tustin and Los Flores, a distance of forty miles. In this distance it is necessary to detour most of the way and in case it is raining the roads are almost impassable. It is also necessary to detour around the Torrey Pines grade.

The inland route to San Diego is reported to be in a very good condition. There are a few places, however, where the centers are high and in case it rains some stretches are very slippery. Conditions will change daily, all depending upon the weather.

Santa Barbara
There is now a very good route to Santa Barbara, via San Fernando, Saugus, Fillmore, Santa Paula, Ventura, and Rincon cutoff. The Rincon is open and completed with the exception of three detours about one mile each. This route gives a paved boulevard from Pasadena to Saugus and from Ventura to Santa Barbara. The route between Saugus and Ventura will be found to be very good dirt roads. Some parts of it are splendid, while other sections will be rough, but taking it all in all it is much the best route.

Foothill Boulevard
The Foothill boulevard is now open between Pasadena and San Bernardino with the exception of a detour at Claremont.

MANY DISORDERS COME FROM THE LIVER

Are You Just Old With Yourself? Do You Regulate Living? Are you sometimes at odds with yourself and with the world? Do you wonder what ails you? True you may be eating regularly and sleeping well. Yet something is the matter! Constipation, Headache, Nervousness, and Bile Spasms indicate a Sluggish Liver. The tried remedy is Dr. King's New Life Pills. Only 25c at your druggist.

RIVERSIDE POLO TOURNEY TO SET MARK

Stars of Game to Take Part in
Record-Breaking Meet
of Thrills

RIVERSIDE, Jan. 28.—The polo tournament to be played in Riverside on the week of January 30 to February 6, inclusive, will be the biggest thing of this kind Southern California has ever witnessed. The best polo players of the world are congregated in Southern California this winter, getting themselves and their ponies in trim for the big tournament at the San Francisco exposition, and the Riverside Polo Club has been fortunate in lining up these players in the contests for the three handsome cups which are offered, the Glenwood Mission Inn trophy, the Walter Dupee cup and the Pacific Coast Polo Association junior championship cup, now held by the San Mateo club.

The teams competing in these several contests will be the Cooperstown, N. Y. team, which last year won the American championship by defeating the team which played in the international matches; Chicago, Midwick All-Stars, Coronado, Pasadena, San Mateo, Santa Barbara and Riverside. There is probability of a ninth entry, a team made up of French and Australian players who are now on the coast.

The opportunity of seeing such men as Beedleston and Stevenson of the Cooperstown champions, Burke and Drury of the Midwick All-Stars, Stack and Fleischmann of the Chicago team, and others of equal prominence in the polo world in action will not come often to Southern Californians, and the opportunity should be made the most of by attendance at one or more of the speedy matches which will be played throughout the week of the tournament.

Riverside was the pioneer in the introduction of polo to this coast, and is celebrating this year its twentieth annual polo tournament. Excursions are already being arranged from Los Angeles, under the auspices of the Chamber of Commerce, from Pasadena, under the auspices of Manager Linnard of the Maryland Hotel, and from San Bernardino county under the auspices of the Orange Show boosters, and the week promises to be in many ways a busy one for Riverside.

GERMANS WANT ENGINE OIL
German agents are attempting to procure castor oil from neutral countries. Germany requires this especially for oiling the motors of aeroplanes and motor cars which are used in very low temperatures.

LEGISLATE TO RELIEVE THE AUTO OWNER?

Solons Confer at Sacramento as to Important Beneficial Changes

SACRAMENTO, Jan. 28.—Automobile legislation designed to lighten the burden now carried by automobile owners and dealers, was the subject of discussion at a conference to consider the several pending measures. An agreement was reached as to several important and beneficial changes in the present law.

One phase of the auto problem in which dealers are particularly interested is the rule requiring one-half the total tax to be paid for a license, even though the life of such license is only for one month or even less.

Dealers say that this requirement seriously interferes with sales during the closing months of the year, as prospective owners defer purchasing until the commencement of the new year, so as to escape the tax.

Senator Benedict has a plan to correct this, by what would be described as the four-period method. Under this plan persons buying a machine during

the first three months of the year will be required to pay the full tax. Those buying during the second quarter would pay three-fourths of the tax, during the third quarter, one-half the tax, and during the last three months of the year, one-fourth of the tax.

The proposition advanced by the State Association of Auto Dealers, that the entire tax be retained by the State Highway Commission for highway improvement, is vigorously opposed by both Senators Cogswell and Benedict. The latter has introduced a bill providing that only one-fourth of the taxes shall go to the state, the other three-fourths being returned to the counties.

During the year 1914 the state took in from automobile licenses \$1,353,000. Operating expenses of the state department amounted to approximately \$160,000, of which the actual overhead cost totalled less than 2.5 per cent of the amount collected.

The State Auto Dealers' Association's proposal would require that the entire amount of the tax collected from any county be retained by the state, one-half to be spent in the county by the State Highway Commission. Senator Benedict is vigorously opposed to this plan and insists that three-fourths of the tax from each county be returned to the county, to be expended by the supervisors for road improvement and maintenance.

Sentiment appears to favor the recommendation of the State Auto Dealers' Association as to method of rating. The association suggests that the present method for computing horsepower used by the State Motor Vehicle Department be continued, but that a tax of 30 cents per horsepower be levied instead of the present system of grade payments. At present a machine of, say twenty-six horsepower, pays a tax of \$10. Under the plan proposed the same machine would pay \$7.80.

POLY TO MEET REDSKINS ON FEBRUARY 27

Baseball Training on in Full Blast; Track Prospects Very Good

Baseball is in full swing down on the Polytechnic grounds these days. Coach Hall puts his bunch through regular practice every night for about an hour or two. There are about twenty-five candidates out for berths on the team. There have been no places promised or even hinted at on the team so that anybody has an even chance for a place.

There are, however, some that are better than others. From the showing that is being made, the batting is especially good. Catland, Snow, Elliot and Best are the new men who are showing up well, while Irvine is as good if not better than last year.

Old-Timers Back

The prospects are especially good this year, with nearly all of last year's team back and with several brand new men out.

Of last year's team Captain Lee Brown is out for his old position as catcher. Criddle, Best and Catland, all new men in baseball, are out for pitchers. Biggs played on the team last and has Irvine and Burkett as rivals for first base. Cannon and Parker are on the job for the second base position while Carver of last year's team seems to have no very dangerous opponent but Elliot and he will give him a warm race, and Carver may land at shortstop, where he is pretty good.

The back-field candidates are all new men. Meyers, Cary and McClintock seem the most promising.

The first game is to be with the Sherman Indians at the Institute at Riverside. This game will be played February 27. According to the schedule the Whittier squad will be taken on twice, here the 6th, and in the Quaker City on the 20th.

Track Prospects Good

The prospects for a good year in track are exceptionally good. There are about thirty men out and they seem to show a keen interest in the sport.

Having baseball and track coming at the same time places both activities at somewhat of a disadvantage, as Coach Hall is hard put to it to give either justice. However, Hall is making a splendid showing and despite his hard task is bound to have the squads much in the running.

There are but few old men away this year, but the loss of such men as Atkinson, Anderson and Keech will be keenly felt in the big meets.

The Playans are both back and are as good if not better than last year. E. Plavan, P. Plavan and Criddle and Bob Hill are the best men for the dashes and high hurdles. Hill, Halderman, Wilkinson and Christensen seem to be the best 440 and 880 men out while Christensen and Robertson are the favorites for the mile. The new entry, the javelin, seems quite popular and has been tried by all the fellows, but the ones that are the best are Irvine, Oertly, Plavan and Utter.

Good at Shot Put

Mike Robinson, Oertly, Irvine and Plavan have all reached near the forty foot mark in the shot put. In the high jump E. Plavan is leader and Arago and Packard are rushing him hard. Wilkinson, E. Plavan and Burkett are the men that seem the best for the high jump. It is understood that Burkett has reached near the eight-foot mark but this is not known for certain.

Schedule Under Way

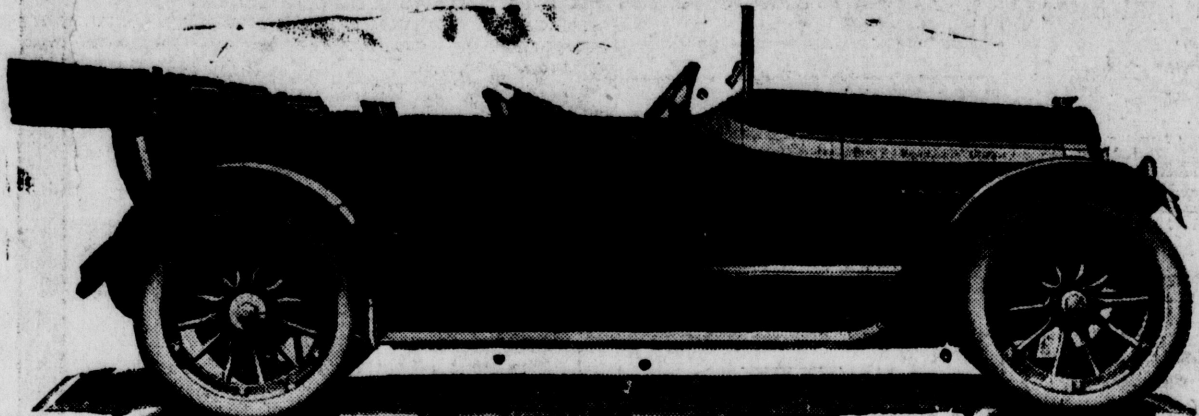

So far this year the only schedules known for sure are the meets with Anaheim at Anaheim, Long Beach here on the 3rd of April, with San Diego here on the 20th of March.

An attempt has been made by Captain Trago to arrange meets with San Bernardino and Riverside, but up until now no definite arrangements have been made.

The meet with Anaheim on February the 6th is merely a practice meet to get the men in shape for the big meet.

COLE

"THE STANDARDIZED CAR"
No wonder Cole owners are proud of their cars.

French Stream-Line Body Cole \$1485

Another Victory for Standardization

In this day of confusing list prices isn't it a solace to find one single car that you know contains all standard material inter-built by the greatest specialists in the industry, and at a price that your better judgment tells you is more certainly sensible.

This new Cole which made 24 1/8 miles per gallon of gasoline on Indianapolis speedway can be seen at our local salesroom.

Wisdom & Company

424-426 West Fourth St., Santa Ana. Sunset 1015; Home 1015.

Haynes

America's Greatest "Light Six"

\$1600

The Man Who Cares for His Own Car

will now find a car on the market which was primarily designed to meet his requirements. Nothing has been sacrificed from an engineering standpoint. Practically all working points are completely enclosed. Yet accessibility is one of the chief features of its construction.

The grease cups and oilers may be easily reached; the carburetor is conveniently located; the valves are readily adjustable; the motor and generator are very accessible; storage battery conveniently placed—in fact, every part and every unit has been carefully considered from the standpoint of the owner, making the Haynes car particularly well suited to the man who prefers to care for his own machine.

In addition to these desirable features, this car represents a sterling value in a high-grade, light-weight, economical "six" with ample power.

Sporting Briefs of the Week

(By Hal Sheridan)

NEW YORK, Jan. 28.—Warned by what happened to the game in California, fight promoters at New Orleans are reported to be maneuvering cautiously in billing future engagements. Some opposition to the fight game is reported to be in evidence in Louisiana, but by discounting "rough stuff" the Southern fight managers hope to keep contests going along smoothly without encountering legal obstacles.

Already they are talking about staging a bout for the lightweight championship of the world in the river city. Promoters would like to schedule such a match and also a mill between two bantams, preferably Kid Williams and Frankie Burns, for Mardi Gras week. No one would risk killing the game by bringing in a couple of heavies for a bout.

Notre Dame's game with West Point next fall, apparently will furnish the country with about the best line of play of the respective powers of the Eastern and Western eleven. Definite word some time ago that Harvard and Michigan would not get together this year made the engagement between the Catholics and West Point one of the leading intersectional battles of the year. The soldiers' schedule, just out, calls for Notre Dame's appearance on November 6.

The proposal to set up the three-year rule barring freshmen from competition seems to have taken its usual course in the East. There was considerable talk of banning the yearlings, but the executive and advisory committees of the Intercollegiate Association of Amateur Athletics of America at its recent meeting here did not even give the subject consideration.

When the association meets March 6, it is not likely that it will have the freshmen rule to discuss. While it is possible that some of the larger universities, notably Yale, may renew its request for action, it is considered certain that smaller Eastern schools at

which freshmen are allowed to compete on athletic teams, will exert enough influence to prevent the adoption of such a rule. Several important changes in the method of running of the field events at the annual games probably will be adopted at the March meeting.

England will bid actively for just one athletic title this year, according to best word relayed here from London. Participation in practically all sport branches is knocked out by the war, but Harry Vardon will try to grab the national open golf championship and only Francis Ouimet and Chick Evans are conceded chances of beating the Englishman.

If Vardon carries off honors he will give England a batting average of 1000 in the international contest series. There will be no international polo and no rowing contests this year and it is not at all certain that tennis enthusiasts will see competition for the Davis Cup.

Col. Jacob Rupert, who makes—well everybody promised not to mention the brew—is considerable of an amateur at the magazine game and willing to admit it. To a crowd of reporters who gathered in his office, after the New York Yankees had been formally transferred, the new owner addressed a request that no mention of his brewing business be allowed to creep into the sport columns.

"I'll handle the advertising for my business in the usual way," was the way the colonel put it.

Mentioning no names, several other leading sents of the baseball world haven't O. K'd the Rupert doctrine.

From Columbia comes the howl that there is a great dearth of candidates for crew work. Indoor practice has been begun on the rowing machines but only a handful of candidates showed up. Coach Rice asked for enough varsity candidates to fill eight boats but got less than half that number.

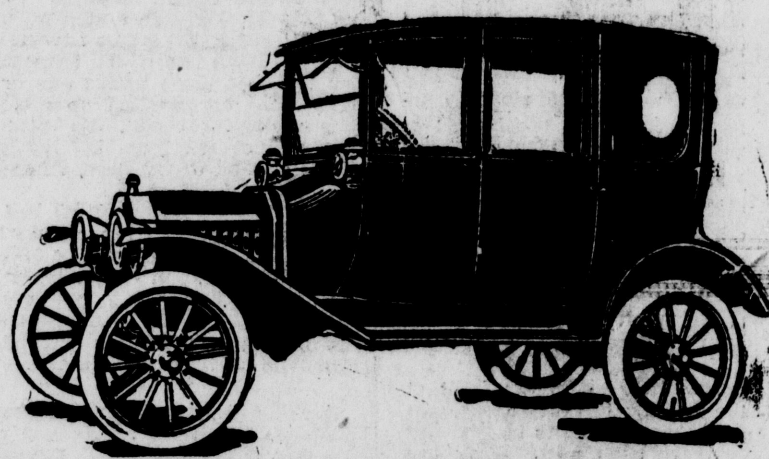

larceny, jumped board bills and cracked safes, a stolen Studebaker automobile has been returned to its owner, and the three men who were its passengers are now in custody.

The car was stolen in Atlanta and recovered in Little Rock. Though police and private detectives had thoroughly combed the entire South Atlantic section for it, the recovery came about through the efficient method by which the Studebaker Service Department traces stolen automobiles, through the medium of its field organization.

As a touring exploit, the dash across the central south stands probably in a class by itself. Realizing that efforts were undoubtedly in progress to recover the car, its crew made the entire trip of nearly 800 miles by unfrequented routes, and largely by night. Trunk highways in this part of the south are, at the best, but ordinary dirt roads. Deviation from them is seldom attempted. But, with the fugitives, it was a case of necessity. They climbed mountains, they forded creeks and streams, they plowed through swamps. To a great extent, they frankly admit, they lived off the country. Their kit included a set of burglars' and safe-crackers' tools which bear the marks of frequent use.

Not until the Mississippi was crossed did they relax their vigilance. At Little Rock, however, they garaged their car at the Polk Motor Company's

"Wise men buy Ford cars and put the balance in the bank."

The Ford Sedan is Ford Elegance built upon Ford Quality. In town and country here is the ideal, everyday-in-the-year car. Not only is it a car of extraordinary smartness and distinction, but it is the same Ford—"The Universal Car"—which more than 675,000 owners have found to be the most reliable, the most serviceable, practical and economical car—less than 2c a mile.

Ford Sedan \$975; Coupelet \$750; Touring Car \$490; Runabout \$440. Fully equipped, f. o. b. Detroit.

Buyers will share in profits if we sell at retail 300,000 new Ford cars between August 1914 and August 1915.
